## **2024 CHOICE FORMULARY BENEFIT**

**This document includes Kaiser Permanente Georgia's  
2024 Choice Benefit Formulary as of  
April 1, 2024**

**For updated formulary, please call 1-855-364-3185  
(TTY 771) Monday through Friday, 8:00am to 6:00pm  
Eastern time.**

## Kaiser Permanente Insurance Company (KPIC) Preferred Provider Organization (PPO) Plans

**NOTE:** This drug formulary is updated often and is subject to change. Upon revision, all previous versions of the drug formulary are no longer in effect.

You should be referring to this document if you are currently enrolled or interested in enrolling in a Kaiser Permanente of Georgia PPO Plan. Kaiser Permanente Insurance Company (KPIC), a subsidiary of Kaiser Foundation Health Plan, Inc., solely underwrites the coverage for the PPO plan.

This document contains information regarding the outpatient prescription drugs that are covered under the PPO Plan. KPIC’s outpatient prescription drug benefit is administered by MedImpact.

For help with this Formulary, please call MedImpact 24 hours a day, 7 days a week, at **1-800-788-2949** (Pharmacy Help Desk) or **711 (TTY)**.

Access to the most current version of the Formulary can be obtained by visiting <http://kp.org/kpic-georgia>. For help in your preferred language, please see the “Help in your Language” section later in this document.

### How to Use This Document (the Formulary)

This document is a list of the prescription medications covered under your PPO Plan.

- Generic drugs are listed by their generic name (in *italics*) followed by the most common brand name if one exists (e.g., atorvastatin oral tablet 10 mg, 20 mg (Lipitor))
- Some generic drugs have a proprietary (brand) name and are listed in CAPITAL letters (e.g., JUNEL 1/20 (21) ORAL TABLET 1-20 MG-MCG)
- Brand drugs are listed by their brand name in CAPITAL letters (e.g., JANUVIA ORAL TABLET 100 MG, 25 MG, 50 MG)

The Formulary may be accessed by using:

- **Drug Categories:** Drugs are grouped into categories according to the types of medical conditions that they are used to treat. Use the ‘Table of Contents’ to navigate to the drug category.
- **Alphabetical Index Listing:** The Index is at the end of the formulary and provides an alphabetical list of all the drugs included in this document. First, look in the Index and find the drug. Next to the drug, there is a page number where the member can find coverage information. Then turn to the page listed in the Index and find the name of the drug in the first column of the list on that page.

This document applies only to outpatient prescription drugs provided to the insured through the retail or mail order pharmacies. This document does not apply to medications obtained in the doctor’s office or in the hospital.

### Formulary Tier Definition:

Symbol	Guideline	Description
T1	Tier 1	Generic Preventive
T2	Tier 2	Generic Preferred
T3	Tier 3	Brand Preferred
T4	Tier 4	Non-Preferred
T5	Tier 5	Specialty

Mandated Preventive Drugs covered under the Affordable Care Act (ACA) are identified in the formulary with “\$0”.

## **Tier Benefit Design**

The Formulary may be applied to a tier benefit design, where the insured shares the cost of prescription drug therapy based on the drug's tier at a cost share-copayment or coinsurance. In most instances, generically available drugs will be covered in a separate preventive or preferred lower tier (lower cost share), and brand drugs listed on the Formulary will be covered under a higher tier (higher cost share copay). Specialty drugs will be covered under the highest tier (coinsurance with a per prescription maximum). Preventive medications required under the Affordable Care Act will be covered as described in the COVERED SERVICES sections of your *Certificate of Insurance and Schedule of Coverage*.

## **Maintaining and Updating the Formulary**

The MedImpact Healthcare Systems Pharmacy and Therapeutics (P&T) and Formulary Committees provide physicians and pharmacists with a method to evaluate the safety, efficacy, and cost-effectiveness of commercially available drug products. The MedImpact P&T and Formulary Committees meet quarterly and more often as warranted to ensure clinical relevancy of the Formulary.

This Formulary is updated by the MedImpact P&T and Formulary Committees using a structured approach to the drug tier assignment process to ensure continuing patient access to medically appropriate drug therapies.

The MedImpact P&T and Formulary Committees use the following criteria in the evaluation of drug tier assignment for the Formulary:

- Drug safety profile
- Drug efficacy
- Comparison of relevant therapeutic benefits to current formulary drugs of similar use, and to minimize therapeutic duplication where possible
- Cost-effectiveness relative to comparable therapy

## **What medications are covered?**

KPIC will generally cover prescribed generic, brand, and specialty drugs listed on the Formulary as long as the drug is medically necessary and other coverage rules are followed. Over-the-counter (OTC) medications are not generally covered. In certain plans, some preventive OTC medications are covered when prescribed by a physician, such as aspirin and iron supplementation.

## **What is a generic drug?**

A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Under your PPO Plan, you may pay a different copay or coinsurance for preferred generic drugs and non-preferred generic drugs. For Preferred generic drugs, your out-of-pocket cost will be less than the non-preferred generic drugs.

## **What is a brand name drug?**

Brand name drugs are usually manufactured and sold by the drug company that originally researched and developed the drug. When the patent on a brand name drug expires, other drug companies may manufacture and sell an FDA approved generic version of the drug with the same active ingredient(s) at lower prices.

Under your PPO Plan, you may pay a different copay or coinsurance for preferred brand drugs and non-preferred brand drugs. For Preferred brand drugs, your out-of-pocket cost will be less than the non-preferred brand drugs.

If you request a brand name drug when a generic drug is prescribed, you may be responsible for paying the brand name cost share plus the difference in cost between the generic drug and the brand name drug. Please see your *Certificate of Insurance and Schedule of Coverage* for details.

### What are specialty drugs?

Specialty drugs are high-cost prescription medications that include drugs used to treat complex and chronic conditions, such as multiple sclerosis, rheumatoid arthritis, and hepatitis C. Specialty drugs often require special handling, administration, or monitoring.

### What are Preventive Drugs?

In certain plans, medications, even over-the-counter (OTC) drugs, are covered at no charge if the insured has a prescription from his or her health care provider. The Flu Vaccine does not require a prescription, but an insurance card must be presented at the pharmacy. Some medications are only covered with no cost share for certain patients, for example, specified age range, in groups that are required or have chosen coverage for preventive drugs required under the Affordable Care Act or when a medication is used for a certain purpose.

### What drugs are not covered?

- Over the counter (OTC) medications or their equivalents, unless otherwise covered under your plan.
- Any drug products used for cosmetic purposes.
- Experimental drug products or any drug product used in an experimental manner.
- Replacement of lost or stolen medication.
- Lifestyle drugs (e.g., sexual dysfunction)
- Medications which require administration by a clinician unless otherwise specified in the Formulary listing.
- Non-Diabetic supplies/Diagnostic supplies/Ostomy supplies/Devices
- See your *Certificate of Insurance and Schedule of Coverage* for a list of all exclusions.

### Are there any restrictions on the drugs covered on the Formulary?

Yes, for certain drugs within the Formulary, a recommended prescribing guideline may apply. These are denoted throughout the document using the following symbols (*refer to table below*).

#### Guideline Symbol Table:

Symbol	Guidelines	Description
AGE	Age Limits	Coverage depends on patient age.
PA	Prior Authorization	Requires a prior authorization based on specific clinical criteria. See “ <i>What is a Prior Authorization?</i> ” below for additional information.
QL	Quantity Limits	Coverage is limited to specific quantities per prescription and/or time period. Prior authorization is required for quantities exceeding the restriction.
ST	Step Therapy	Coverage depends on previous use of another drug. Prior authorization may be required. See “ <i>What is Step Therapy?</i> ” below for additional information.

### **What is a Prior Authorization?**

A prior authorization (“PA”) is a technique that is used to encourage safe and cost-effective medication use. Many drugs have multiple indications, so PAs are placed on drugs to make sure the drug is appropriate and safe for the insured.

**How does the program work?** Drugs marked with a PA mean that your prescriber must first show that you have a medically necessary need for the prescribed drug. This means that to receive coverage your prescriber will need to work with MedImpact to receive prior authorization of the drug. Drugs subject to Prior Authorization have specific clinical criteria that you must meet in order to obtain coverage. Refer to the Requirements/Limits column in the Formulary for drugs that require a PA.

Upon receipt of your prior authorization request, MedImpact will notify the licensed prescribing provider within 72 hours for non-urgent requests and within 24 hours if exigent circumstances exist of the request approval or other outcome. If MedImpact fails to respond within 72 hours for non-urgent requests and within 24 hours if exigent circumstances exist from receipt of a request form from a licensed prescribing provider, the request shall be deemed to have been approved. If you are not satisfied with the outcome, you can request an appeal by calling MedImpact at **1-800-788-2949** (Pharmacy Help Desk). If MedImpact does not approve a drug you or your provider has requested, you will receive an adverse benefit determination notice telling you why your request was denied and how you can appeal.

### **What is Step Therapy?**

Selected prescription drugs require step therapy. The step therapy program encourages safe and cost-effective medication use. Under this program, a “step” approach is required to receive coverage for certain less preferred medications. This means that to receive coverage you may need to first try a proven, cost-effective medication before using a more costly treatment.

**How does the program work?** The step therapy program requires that you have a prescription history for a “first-line” medication before your benefit plan will cover a “second-line” medication. A first-line medication is recognized as safe and effective in treating a specific medical condition, as well as being cost-effective. A second-line medication is a less preferred or sometimes more costly treatment option.

When possible, your doctor should prescribe a first-line medication appropriate for your condition. If your doctor determines that a first-line drug is not appropriate for you or is not effective for you, your prescription drug benefit will cover a second-line drug when certain conditions are met. Prior authorization may be required.

Upon receipt of your request for a second-line drug, MedImpact will notify the licensed prescribing provider within 72 hours for non-urgent requests and within 24 hours if urgent circumstances exist of the request approval or other outcome. If you are not satisfied with the outcome, you can request an appeal by calling MedImpact at **1-800-788-2949** (Pharmacy Help Desk) **or 711 (TTY)**. If MedImpact does not approve a drug you or your provider has requested, you will receive an adverse benefit determination notice telling you why it denied your request and how you can appeal.

**What drugs are eligible to be mailed from the mail-order pharmacy?**

Most maintenance drugs can be mailed from our mail-order pharmacy. Drugs eligible for mail order, however, cannot be mailed outside the United States. There is no extra charge for mail order. The appropriate out-of-pocket cost according to your prescription drug benefit will apply.

**Benefit Coverage and Limitations**

The Formulary does not provide information regarding the specific coverage and limitations an individual insured may be subject to. Specific benefit inclusions, exclusions, and out-of-pocket costs are not reflected in the Formulary.

The Formulary applies only to outpatient prescription drugs dispensed to the insured for self-administration and does not apply to medications which require medical administration. For specific questions regarding your coverage, please call KPIC Customer Service at **1-855-364-3185 Monday through Friday 8 a.m. – 6 p.m., Eastern Time**. To find out the cost of your drugs, you may contact MedImpact at **1- 800-788-2949** (Pharmacy Help Desk) or **711 (TTY)**. Please refer to your Certificate of Insurance and Schedule of Coverage for additional information.
