Care while traveling

What are the types of care?

Anything can come up when you travel, and different health needs require different types of care. These examples can help you better understand emergency, urgent, and routine care.

What is an emergency care need?

Emergency care is for a medical or psychiatric condition, including severe pain, that requires immediate attention to prevent serious jeopardy to your health.\(^2\)

Examples include:

- Chest pain or pressure
- Severe stomach pain that comes on suddenly
- Severe shortness of breath
- Decrease in or loss of consciousness
What is an urgent care need?
An urgent care need is one that requires prompt medical attention, usually within 24 or 48 hours, but is not an emergency medical condition.

Examples include:
• Minor injuries, cuts, backaches, earaches, upper-respiratory symptoms, sore throats, frequent or severe coughs, frequent urination or a burning sensation when urinating

What is a routine care need?
An expected need. Examples include:
• Physical exams
• Immunizations (shots)

If you’re not sure what kind of care you need, and you have a secure login and password, you can use kp.org to send a nonurgent message to your primary care physician.²

In case of an emergency
If you have a medical emergency, call 911 or go to the nearest hospital.
What if I need emergency or urgent care?

You’re covered for emergency care anywhere in the world.¹

What should I do if I need emergency care and I’m not in a Kaiser Permanente service area?

- Get care right away. You don’t need to call Kaiser Permanente first.
- You’re covered for emergency care anywhere in the world. If you need emergency or out-of-area urgent care, you can get care from any provider.¹
- If you’re in the United States, call 911 or go to the nearest hospital.
- Outside the United States,¹ go right to the nearest hospital or place where you can get medical care.
- Once you’re stable, call Kaiser Permanente at 1-800-225-8883. Let us know you got emergency care or have been admitted to a hospital.
- If you’re unable to call, ask the doctor or someone else at the hospital to call for you.
- We’ll talk to the doctor who’s treating you to make sure you get the right care and to decide what to do next.
- We have interpreters, so we can talk to your doctor even if he or she doesn’t speak English.
What if I need follow-up care after an emergency and I’m not in a Kaiser Permanente area?

• Call us at 1-800-225-8883 as soon as you can. It’s better to call us before you get care. If we agree that you need care, we may approve the care the doctor who’s treating you recommends, or we may choose a different doctor to make sure you’re getting the right care.

• Refer to your Evidence of Coverage (EOC) for information about your post-stabilization coverage.

Care where you need it

How do I get care in other Kaiser Permanente areas?³

Call the Away from Home Travel Line⁴ at 951-268-3900 and let them know you plan to visit another Kaiser Permanente service area for care.

- You’ll get a medical record number (MRN) or health record number (HRN) and information on making an appointment.

You’ll only use this MRN or HRN in the area you’re visiting. You’ll use the same MRN or HRN whenever you visit the area. There’s no need to get a new MRN or HRN if you visit the area again.

When you get back home, you’ll use your home MRN or HRN to get care.

Do I need approval first?

Certain types of care require approval by Kaiser Permanente.

Call the Away from Home Travel Line⁴ at 951-268-3900 for more information.
What happens if I move?
If you move to another Kaiser Permanente area, you may not be able to keep your current membership. You may be able to enroll in a Kaiser Permanente plan in the area you’ve moved to. See your Evidence of Coverage for more information.

What costs should I expect?
For most covered services, you’ll pay what you normally would in your home region – for example, a copay, coinsurance, or deductible payment. If what you pay doesn’t cover all that you owe for the care you received, you’ll get a bill for the difference later. For some services and items, you may have to pay in full and file a claim with your home service area to be paid back.

For more specific information on your coverage, please check your plan details or contact Member Services in your home service area.5

Medicare members should check their Evidence of Coverage (EOC) for more details and whether they have emergency coverage outside the United States. Most of our plans cover emergency and urgent care outside the United States.
If you reasonably believe you have an emergency medical condition, call 911 or go to the nearest hospital.

An emergency medical condition is a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a reasonable person would have believed that the absence of immediate medical attention would result in any of the following: (1) placing the person’s health (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (2) serious impairment to bodily functions; or (3) serious dysfunction of any bodily organ or part.

A mental health condition is an emergency medical condition when it meets the requirements of the paragraph above or when the condition manifests itself by acute symptoms of sufficient severity such that either of the following is true: The person is an immediate danger to himself or herself or others, or the person is immediately unable to provide for or use food, shelter, or clothing due to the mental disorder.
When you get care in other Kaiser Permanente areas, your home-area claims and grievance processes still apply. Members can file a grievance with or without a denial letter. See your Evidence of Coverage for details.

This number can be dialed inside and outside the United States. Before the phone number, dial “001” for landlines and “+1” for mobile lines if you’re outside the country. Long-distance charges may apply, and we can’t accept collect calls.
