

## Welcoming our newest members

We look forward to helping your baby stay healthy for many years to come!

## Information you need to know about your baby's health care coverage

Colorado state law requires that the newborn child of a subscriber is covered for the first 31 days after birth.\* During those first 31 days, we waive the premiums for the baby.

**IMPORTANT**: If the application/change form isn't received within 31 days after birth, the baby's coverage will automatically end on day 32.

After the baby is born, and within the first 31 days, you need to submit an application/change form to make sure your baby is added to your plan.

- If you have coverage through your employer, contact your employer directly to add the baby to your plan.
- If you signed up for coverage directly through Kaiser Permanente, written notification must be sent to us at:

Kaiser Permanente Membership Administration PO Box 203004 Denver, CO 80220-9004 Or fax to **1-866-846-2650** 

- If you signed up for coverage through Connect for Health Colorado, contact Connect for Health Colorado to add the baby. Call **1-855-752-6749** or visit **connectforhealthco.com**.
- If both parents have separate Kaiser Permanente health plans, coverage for the newborn applies to both plans for the first 31 days. You cannot choose to add the newborn to only one plan for this time period. We will coordinate the benefits internally or with another insurer for your convenience. To ensure that services are covered, the newborn must receive services from a Kaiser Permanente facility or plan provider (unless the newborn is covered under emergency services benefits).
- If your baby is born at home or at a non-Kaiser Permanente affiliated provider, please notify us to ensure we process your newborn's coverage as quickly as possible.

If you have questions about adding your newborn child to your plan, contact our Member Services department at **303-338-3800** or **1-800-632-9700** (TTY **711**), Monday through Friday from 8 a.m. to 6 p.m.

\*Colorado State law does not require coverage of newborn children of a subscriber's dependent child, (i.e., grandchildren).
