Re: California Consumer Privacy Act - Notice to Covered Individuals; Effective Date - January 1, 2020

The California legislature has adopted various laws to safeguard Californians' privacy, the latest of which is the California Consumer Privacy Act of 2018 (the "CCPA"). The CCPA was enacted to give consumers certain rights with respect to their personal information collected by businesses, including the right to know what personal information is being collected about them.

The context of an employment or contractor relationship, the CCPA requires a business to inform Covered Individuals of the categories of personal information collected and the purposes for which those categories of personal information are used. For purposes of the CCPA, a "Covered Individual" is natural person who is acting as a job applicant to, an employee of, owner of, director of, officer of, medical staff member of, or contractor of a business ("Covered Individual"). Covered individuals do not include corporations, business trusts, partnerships, limited liability companies, associations, or other such entities (e.g., a group medical practice), or individuals who provide services to a business on behalf of such entities.

The Permanente Medical Group, Inc. ("TPMG") is committed to protecting the privacy of all of its Covered individuals and to complying with all privacy laws. As a result, this CCPA Notice to Covered Individuals (the "CCPA Notice") is being provided to you to inform you of the categories of personal information TPMG may collect and the purposes for which TPMG collects that information.

If you have received the CCPA Notice but do not meet the above-noted definition of a Covered individual (e.g., you are not a natural person within the meaning of the CCPA), please disregard this Notice. Rest assured, however, that TPMG remains committed to compliance with all applicable privacy laws, irrespective of whether a contracting entity is a Covered Individual for purposes of the CCPA.

**Categories of Personal Information Collected** - The relevant categories of personal information TPMG may collect in the context of a contracting relationship includes:

- Identifiers such as real name, alias, postal address, unique personal identifier (e.g., California clinical license number, National Provider Identification number, and Federal Tax Identification Numbers), internet protocol (IP) address, email address, or other similar identifiers.
- Records such as signature, physical service address, telephone number, bank routing and account numbers, or any other financial information, excluding all publicly available information lawfully made available to the general public from federal, state, or local government records.
- Education information such as license type

**Purposes of Use** - TPMG may use the above categories of personal information for contracting-related functions, including the following: communications; contract development, execution and administration; claim payment; claim payment dispute resolution; electronic data interchange (EDI); electronic funds transmission (EFT); electronic remittance advice (ERA) transmission; taxes; demographic analysis; provider directory production; etc.
