All Kaiser Permanente facilities are accessible to members.

## Provider selection criteria

Kaiser Foundation Health Plan of the Northwest (KFHPNW) offers several networks that are comprised of the Kaiser Permanente integrated health care delivery system. The primary contracted provider groups and facilities that participate include: Northwest Permanente, P.C., Physicians and Surgeons, facilities owned and operated by Kaiser Foundation Hospitals (hospitals, Kaiser Permanente medical offices, Kaiser Permanente pharmacies), The Portland Clinic, The CHP Group, and contracted hospitals. In general, the networks contain physicians, specialists and facilities to provide services to individuals and groups covered under all Kaiser Permanente plans.

Prior to allowing network participation, providers must successfully complete the initial credentialing process and demonstrate their ongoing ability to meet credentialing standards through a re-credentialing process. Providers are required to provide the information needed to review and verify their credentials. To ensure quality and safety of care between re-credentialing cycles, Kaiser Permanente performs ongoing monitoring of the participating provider's performance. Kaiser Permanente acts on important quality or safety issues in a timely manner by taking appropriate action against a participating provider when occurrences of poor quality are identified.

We also monitor and analyze member feedback relating to network access, availability of providers, and cultural needs and preferences. This information helps guide our network improvement efforts.

If you are looking for a gender affirming treatment provider and can't find a provider close to you, please call our Member Services department at 1-800-813-2000 for help finding an in-network provider.
