

Lista de medicamentos recetados disponibles para planes comerciales de una Organización de Proveedores Exclusivos (EPO)/EPO con deducible (DEPO) (planes autofinanciados) de California para 2025

(Lista de medicamentos cubiertos)

LEA LO SIGUIENTE: ESTE DOCUMENTO CONTIENE INFORMACIÓN ACERCA DE LOS MEDICAMENTOS QUE CUBRIMOS CUANDO USTED PARTICIPA EN UN PLAN AUTOFINANCIADO DE UNA ORGANIZACIÓN DE PROVEEDORES EXCLUSIVOS (EXCLUSIVE PROVIDER ORGANIZATION, EPO) O DE UNA ORGANIZACIÓN DE PROVEEDORES EXCLUSIVOS CON DEDUCIBLE (DEDUCTIBLE EPO, DEPO) DE KAISER PERMANENTE.

La lista de medicamentos recetados disponibles se actualizó el 31 de octubre de 2025 y tiene vigencia a partir de 1 de noviembre de 2025. Este documento con la lista de medicamentos recetados disponibles está sujeto a cambios y puede variar según su plan de salud. No proporciona información con respecto a una cobertura específica, lo que incluye exclusiones, copagos o coseguros específicos. Podrá encontrar dicha información en su *Descripción Resumida del Plan* u otros documentos del plan. Para conocer información más reciente sobre qué lista de medicamentos recetados disponibles se aplica a su plan, visite kp.org/formulary (cambie el idioma a español) o, en caso de tener preguntas sobre sus beneficios de medicamentos recetados, comuníquese con el número de atención al cliente que aparece en su tarjeta de identificación.

¿Qué es la lista de medicamentos recetados disponibles para planes comerciales autofinanciados de una EPO/DEPO de Kaiser Permanente en California? La lista de medicamentos recetados disponibles para planes comerciales autofinanciados de una EPO/DEPO de California es una lista de medicamentos cubiertos elegidos por un grupo de médicos y farmacéuticos de Kaiser Permanente, conocidos como el Comité de Farmacia y Terapéutica. Este comité se reúne con regularidad para evaluar y elegir los medicamentos más seguros y eficaces para nuestros miembros. Esta lista de medicamentos recetados disponibles cumple con los requisitos de la legislación, los reglamentos y las guías estatales para planes comerciales.

¿Qué medicamentos están cubiertos?

La lista de medicamentos recetados disponibles de Kaiser Permanente incluye medicamentos de marca, genéricos y especializados, necesarios desde el punto de vista médico, que aparecen en la lista de medicamentos recetados disponibles para planes comerciales de California, siempre y cuando la receta se surta en una farmacia de Kaiser Permanente o en una farmacia afiliada y se cumplan otras reglas del plan.

Si se le receta un medicamento que se encuentra en la lista de medicamentos recetados disponibles para planes comerciales de California, el medicamento estará cubierto de acuerdo con los términos de su beneficio de medicamentos.

Cómo obtener una excepción a la lista de medicamentos recetados disponibles

Los medicamentos que no aparecen en la lista de medicamentos recetados disponibles se llaman medicamentos no incluidos en la lista de medicamentos cubiertos. Cuando un médico de Kaiser Permanente determina que un medicamento no incluido en la lista de medicamentos cubiertos es apropiado y necesario desde el punto de vista médico, ese medicamento estará cubierto de acuerdo con

los términos de sus beneficios de medicamentos recetados. Si no recibe sus beneficios de medicamentos recetados por medio de Kaiser Permanente, se le cobrará el precio de venta al por menor completo.

Puede consultar con su médico si se necesita hacer una excepción a la lista de medicamentos recetados disponibles. Usted y su médico son las personas más indicadas para determinar sus necesidades de medicamentos.

Si desea recibir un medicamento no incluido en la lista de medicamentos cubiertos que su médico determina que no es necesario desde el punto de vista médico, puede presentar una apelación ante Servicio al cliente. Llame al número que se encuentra al reverso de su tarjeta de identificación.

¿Hay alguna restricción sobre los medicamentos cubiertos en la lista de medicamentos recetados disponibles?

Algunos medicamentos cubiertos pueden tener requisitos o límites de cobertura adicionales, como los límites de cantidad. En el caso de algunos medicamentos, Kaiser Permanente puede limitar la cantidad del medicamento entregado a un suministro de ciertos días. Por ejemplo, medicamentos con una alta probabilidad de que se les dé un uso inapropiado o de que se desperdicien.

¿Qué es un medicamento de marca?

Por lo general, la fabricación y venta de los medicamentos de marca están a cargo de la compañía farmacéutica que primero realizó la investigación y desarrolló el medicamento. Cuando vence la patente de un medicamento de marca, otras compañías farmacéuticas pueden fabricar y vender una versión genérica del medicamento, aprobada por la Administración de Medicamentos y Alimentos (Food and Drug Administration, FDA) con los mismos principios activos a precios más bajos.

¿Qué es un medicamento genérico?

Un medicamento genérico está aprobado por la FDA como un medicamento que contiene el mismo principio activo que el medicamento de marca. Por lo general, los medicamentos genéricos cuestan menos que los de marca.

¿Qué es un medicamento especializado?

Los medicamentos especializados son medicamentos aprobados por la FDA que tienen un costo muy alto, que están incluidos en nuestra lista de medicamentos recetados disponibles y que se usan para tratar condiciones crónicas complejas, tales como artritis reumatoide, esclerosis múltiple o cáncer.

¿Cuáles son los medicamentos elegibles para enviarse con el servicio de farmacia por correo?

La mayoría de los medicamentos se pueden enviar con nuestro servicio de farmacia por correo. Algunos medicamentos (por ejemplo, los que tienen un costo extremadamente alto o que requieren un manejo especial) no son elegibles para enviarse por correo. Los medicamentos no se pueden enviar por correo fuera de los Estados Unidos.

Puede pedir resurtidos por medio de nuestro servicio de pedidos por correo en línea en kp.org/refill (cambie el idioma a español), por teléfono o en la aplicación móvil. Los pedidos por correo no tienen un costo adicional. Se aplicará el costo compartido correspondiente (de acuerdo con su beneficio de medicamentos recetados).

Su beneficio de medicamento recetado tal vez tenga un menor costo compartido si utiliza el servicio de farmacia por correo.

Consulte su *Descripción Resumida del Plan u otros documentos del plan* para conocer la información completa de su beneficio de medicamentos recetados.

Lista de medicamentos recetados disponibles para planes comerciales de Kaiser Permanente en California

Kaiser Permanente puede agregar o eliminar medicamentos de la lista de medicamentos recetados disponibles para planes comerciales de California a lo largo del año. Estos cambios a la lista de medicamentos recetados disponibles se basan en información nueva o medicamentos nuevos disponibles.

NOTA: Esta lista de medicamentos recetados disponibles se actualiza con frecuencia y está sujeta a cambios. Después de la revisión, todas las versiones anteriores de la lista dejan de estar vigentes.

¿Cómo uso la lista de medicamentos recetados disponibles?

Hay dos maneras de buscar su medicamento en la lista de medicamentos recetados disponibles:

Afección médica

La lista de medicamentos recetados disponibles comienza en la página 5. Los medicamentos de esta lista de medicamentos recetados disponibles están agrupados en categorías según el tipo de afección médica para la que se use el medicamento. Por ejemplo, los medicamentos que se usan para tratar enfermedades cardíacas figuran bajo la categoría “Cardiovascular Drugs” (Medicamentos cardiovasculares). Si sabe para qué se usa el medicamento que toma, busque el nombre de la categoría en la lista que comienza en la página 5. Luego, busque el medicamento bajo el nombre de la categoría.

Listado en orden alfabético

Si no sabe en qué categoría debe buscar, busque su medicamento en el índice que comienza en la página 108. El índice ofrece una lista en orden alfabético de todos los medicamentos que figuran en este documento. Consulte el índice y busque su medicamento. Junto a su medicamento, verá el número de la página donde encontrará la información de la cobertura. Pase a la página señalada en el índice y busque el nombre de su medicamento en la primera columna de la lista.

La primera columna de la tabla contiene el nombre del medicamento. Los medicamentos de marca aparecen con letras mayúsculas (p. ej. CAYSTON) y los genéricos con letras minúsculas y en cursiva (p. ej., *amoxicilina*).

Es posible que no aparezcan todas las **dosificaciones** y **concentraciones** para un medicamento en particular incluido en la **lista de medicamentos recetados disponibles**. Algunos medicamentos pueden tener múltiples formas de dosificación. En esos casos, algunas dosificaciones pueden estar incluidas en la lista de medicamentos recetados disponibles, mientras que otras no. **Nota:** Algunos de estos medicamentos pueden estar disponibles únicamente en un entorno clínico y puede aplicarse su costo compartido correspondiente.

La segunda columna, “Nivel del medicamento”, indica a qué nivel pertenece el medicamento. Los medicamentos incluidos en la lista de medicamentos recetados disponibles para planes comerciales autofinanciados de una EPO/DEPO de California se categorizan de la siguiente manera:

Nivel 1: Medicamentos genéricos preferidos

Nivel 2: Medicamentos de marca preferidos

Nivel 3: Medicamentos no preferidos (genéricos y de marca) ** no aparecen en la lista **

Nivel 4: Medicamentos especializados

Nota: Es posible que su plan no incluya beneficios para cada nivel designado. Además, se requiere que algunos medicamentos se proporcionen sin costo a los miembros. Consulte su *Descripción Resumida del Plan u otros documentos del plan* para obtener información sobre la cobertura de medicamentos específicos para su plan.

La tercera columna del cuadro indicará cualquier requisito o límite para ese medicamento:

QL = Límites de cantidad. Es posible que limitemos la cantidad que puede obtener de algunos medicamentos. Además, cuando hay escasez de un medicamento en el país, es posible que limitemos la cantidad del medicamento suministrado.

LD = Los medicamentos de distribución limitada solo se pueden obtener en ciertas farmacias especializadas. Para localizar una farmacia especializada, comuníquese con Servicio al cliente.

MB = Medicamento de un beneficio médico. Por lo general, estos medicamentos no pueden ser autoadministrados, y en cambio, un profesional de la atención médica los administra en un consultorio médico.

OC = Medicamentos de quimioterapia (contra el cáncer) administrados de manera oral.

PV = Medicamentos de salud preventiva.

DSL = límite de suministro diario
