# Health Benefit (FEHB) Drug Formulary

## Northern California Region: Fresno

This document contains information about the drugs we cover when you participate in a Federal Employees Health Benefits (FEHB) plan offered by Kaiser Permanente (Plan).

This formulary is effective **December 5, 2023**. Benefits described in this formulary are effective January 1 – December 31, 2023.

### What is the Kaiser Permanente FEHB Drug Formulary?

A formulary is a list of drugs determined to be safe and effective for our members by our Pharmacy and Therapeutics Committee. Use of formulary drugs enables Kaiser Permanente to provide high quality care to you and your family at reasonable costs. Kaiser Permanente continually updates the formulary throughout the year based on new medical evidence, considering the recommendations of appropriate physician experts.

### How much will I pay for covered drugs?

The cost-sharing you will pay for most drugs depends on:

- The tier in which your drug is categorized, and
- Whether your drug is included in our formulary. Preferred drugs are included in our formulary. Non-preferred drugs are not included in our formulary.

Below is the copayment you pay for up to a 30-day supply of prescription drugs at a Plan pharmacy. You pay only two copayments for up to a 100-day supply for most drugs dispensed through our mail order program.

Drug Tier	Type	High Option	Standard Option
Tier 1	Generic drugs	\$10	\$15
Tier 2	Preferred brand-name drugs	\$40	\$50
Tier 3	Non-preferred brand-name drugs	\$40	\$50
Tier 4	Specialty drugs	\$100	\$150

You pay 50% of our allowed amount for fertility and sexual dysfunction drugs. Some drugs may be covered at no cost sharing, such as tobacco cessation medications, women’s contraceptive drugs and devices and drugs required by ACA. Specific coverage information, including limitations and exclusions, is described in your FEHB brochure (RI 73-889), see Section 5(f) Prescription drug benefits. To get a copy of your FEHB brochure or if you have questions, please visit our website at [kp.org/feds](http://kp.org/feds) or call Member Services at 1-800-464-4000, 24 hours a day, 7 days a week (closed holidays). For TTY for the hearing/speech impaired, call 711.

## **We define tiers as follows:**

- Tier 1. Generic drugs are produced and sold under their generic names after the patent on the brand-name drug expires. Although the price is usually lower, the quality of generic drugs is the same as brand-name drugs. Generic drugs are also just as effective as brand-name drugs. The U.S. Food and Drug Administration (FDA) requires that a generic drug contain the same active drug ingredient in the same amount as the brand-name drug.
- Tier 2. Brand-name drugs are produced and sold under the original manufacturer's brand name. Preferred brand-name drugs are listed on our drug formulary.
- Tier 3. Non-preferred brand-name drugs are not listed on our drug formulary and are not covered unless approved through the exception process.
- Tier 4. Specialty drugs are high-cost drugs that are on our specialty drug list. Kaiser Permanente adopts the model used by most Medicare plans to determine which drugs are in the specialty tier.

## **What drugs are eligible to be mailed from the mail order pharmacy?**

Most drugs can be mailed from our mail order pharmacy. Some drugs (for example, drugs that are extremely high cost, require special handling or requested to be mailed outside the state of California) may not be eligible for mailing. We provide up to a 100-day supply for most drugs when dispensed through our mail order program for two copayments.

## **How do I use the FEHB Drug Formulary?**

Our formulary drugs are listed in this formulary by medical condition and alphabetically. We consider drugs not listed on our formulary to be “non-preferred drugs”. You may pay higher cost-sharing for non-formulary drugs that are medically necessary.

The cost-sharing you pay and other coverage information is determined by the outpatient prescription drug benefit in your FEHB brochure (RI 73-889, see Section 5(f) Prescription drug benefits).

## **Formulary Drugs by Medical Condition**

The formulary begins on page 4. The drugs in this formulary are grouped into categories depending on the type of medical condition that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents.” If you know the medical condition your drug is used for, simply look for the category name in the list. Then look under the category name for your drug.

## **Formulary Drugs by Alphabetical Listing**

If you are not sure what category to look under, the Index starting on page 25, provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed. Look in the Index to find the drug name and the page number where you can locate coverage information. Turn to the page listed in the Index and find the name of the drug on the list. If you are using a computer to view this document, you also use the search function (Ctrl F) to find the medication by name.

## Columns on Medical Condition and Alphabetical Listings

There are three columns in the attached chart.

- The first column lists the drug name. Brand-name drugs are capitalized (e.g. ALBENZA) and generic drugs are listed in lower-case italics (e.g. *amoxicillin*) Some drugs include different dosage forms and strengths. All dosage forms and strengths for a particular drug listed may not be on the Formulary. Some drugs have multiple dosage forms. In such cases, some dosages may be on the Formulary and others not. Some of these drugs may be available only in a clinic setting.
- The second column indicates drug tier. Some drugs may have more than one tier listed in this column. This means that the amount you pay may vary based on the dosage or the way the drug is administered. You will find cost-sharing for your drug in your FEHB brochure. To get a copy of your FEHB brochure or if you have questions, please visit our website at [kp.org/feds](http://kp.org/feds) or call Member Services at 1-800-464-4000 (TTY 711), 24 hours a day, 7 days a week (closed holidays).
- The third column indicates additional requirements or limits on coverage. These requirements and limits may include:

**QL** = Quantity Limit. For certain drugs, we may limit the amount of the drug you can receive. Additionally, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed.

## Does the FEHB Drug Formulary ever change?

Yes, Kaiser Permanente continually updates the formulary based on new medical evidence, considering the recommendations of appropriate physician experts and notifies our doctors, pharmacists, and other clinicians about any changes. If a change in the formulary affects any of your prescriptions, your doctor or pharmacist will let you know.

Our online formulary at [kp.org/formulary](http://kp.org/formulary) is updated on a regular basis. To get updated information about the drugs covered by Kaiser Permanente or if you have questions, please visit our website at [kp.org/feds](http://kp.org/feds) or call Member Services at 1-800-464-4000, 24 hours a day, 7 days a week (closed holidays). For TTY for the hearing/speech impaired, call 711.

# Formulary Drugs by Medical Condition

Name of drug	Drug Tier	Requirement / Limits
<b>ANTI-INFECTIVE AGENTS</b>		
<b>ANTHELMINTICS</b>		
<i>albendazole</i>	1
