

Kaiser Permanente

# 2024 Comprehensive Formulary

(List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 04/16/2024. For more recent information or other questions, please contact the number for your Kaiser Permanente Medicare Advantage (HMO) Member Services at 1-888-901-4600 or, for TTY users, 1-800-833-6388 or 711, seven days a week, 8 a.m. to 8 p.m, or visit [kp.org/seniorrx](https://kp.org/seniorrx).

**Important Message About What You Pay for Vaccines** - Our plan covers most Part D vaccines at no cost to you, even if you haven't paid your deductible. Call Member Services for more information.

**Important Message About What You Pay for Insulin** - You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible.

 **KAISER PERMANENTE®**

H5050\_RXFORM\_2024\_C

HPMS Approved Formulary File Submission 00024409, Version 20

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to “we,” “us,” or “our,” it means Kaiser Permanente. When it refers to “plan” or “our plan,” it means Kaiser Permanente Medicare Advantage.

This document includes a list of the drugs (formulary) for our plan which is current as of April 16, 2024. For an updated formulary, please visit our website at [kp.org/seniorrx](https://kp.org/seniorrx) or contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. The formulary and pharmacy network may change at any time. You will receive notice when necessary.

## **What is the Kaiser Permanente Formulary?**

A formulary is a list of covered drugs selected by Kaiser Permanente in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Kaiser Permanente will generally cover the drugs listed on our formulary as long as the drug is medically necessary, the prescription is filled at a Kaiser Permanente network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your **Evidence of Coverage**.

## **Can the formulary (Drug List) change?**

Most changes in drug coverage happen on January 1, but Kaiser Permanente may add or remove drugs on the Drug List during the year, move them to different cost-sharing, tiers, or add new restrictions. We must follow Medicare rules in making these changes.

**Changes that can affect you this year:** In the below cases, you will be affected by coverage changes during the year:

**New generic drugs.** We may immediately remove a brand-name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.

- If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the Kaiser Permanente Formulary?”

**Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

**Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to the market to replace a brand-name drug that is currently on the formulary or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions to a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.

- If we make other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Kaiser Permanente Formulary?”

### **Changes that will not affect you if you are currently taking the drug.**

Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of April 16, 2024. To get updated information about the drugs covered by our plan, please contact us. Our contact information appears on the front and back cover pages.

In the event of a midyear non-maintenance formulary change, we will provide details in the Medicare Part D **Explanation of Benefits** that we send you or **Provision of Notice** posted at [kp.org/seniorrx](http://kp.org/seniorrx).

### **How do I use the formulary?**

There are two ways to find your drug within the formulary:

#### **Medical condition**

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Drugs”. If you know what your drug is used for, look for the category name in the list that begins on 1. Then look under the category name for your drug.

#### **Alphabetical listing**

If you are not sure what category to look under, you should look for your drug in the index that begins on page 125. The index provides an alphabetical list of all the drugs included in this document.

Preferred generic and generic drugs, preferred brand-name and nonpreferred drugs, specialty-tier drugs, and injectable vaccines are listed in the index. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

### **What are generic drugs?**

Our plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs. Cost-sharing for preferred generic drugs may be different than for generic drugs. Please see your **Evidence of Coverage** for more information.

### **What are brand-name drugs?**

Brand-name drugs are manufactured and sold by the pharmaceutical company that originally researched and developed the drug. When the patent on a brand-name drug expires, other pharmaceutical companies may manufacture and sell an FDA-approved generic version of the drug with the same active ingredient(s) at lower prices. Cost-sharing for preferred brand-name drugs may be different than for nonpreferred brand-name drugs. Please see your **Evidence of Coverage** for more information.

### **What are specialty-tier drugs?**

Specialty-tier drugs are very high-cost drugs approved by the FDA that are on our formulary.

### **What are injectable Part D vaccines?**

Part D vaccines are certain injectable vaccines that are covered under Medicare Part D (for example, Shingrix for shingles, Adacel for Diphtheria, Tetanus, and Pertussis, which are approved by the FDA).

### **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Our plan may require you or your network provider to get prior authorization for certain drugs. This means that you will need to get approval from our plan before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity Limits:** For certain drugs, our plan limits the amount of the drug that Kaiser Permanente will cover. For example, our plan provides two inhalers (36 grams) for a one-month supply per prescription for albuterol HFA (brand equivalent Ventolin HFA). This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Kaiser Permanente formulary?” below for information about how to request an exception.

### **What if my drug is not on the formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first check our Kaiser Permanente 2024 Comprehensive Formulary at [kp.org/seniorrx](http://kp.org/seniorrx) or call our plan at the number listed on the front and back cover pages and confirm if your drug is covered.

If your Medicare Part D prescription drug is not on our **Kaiser Permanente 2024 Comprehensive Formulary**, you have two options:

- You can ask your network provider to prescribe a similar drug that is included on our formulary.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

### **How do I request an exception to the Kaiser Permanente Formulary?**

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our **Kaiser Permanente 2024 Comprehensive Formulary**. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- In accord with our tiering exception process, you can ask us to cover a Part D formulary drug at a lower cost-sharing level. If approved this would lower the amount you must pay for your drug. **Note:** Specialty tier (Tier 5) drugs are not eligible for a tier exception.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the alternative drugs included on the

plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier or utilization restriction exception. **When you request a formulary, tier or utilization restriction exception you should submit a statement from your network provider supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your network provider believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

**Please note:** You can only request an exception for drugs that are considered Medicare Part D prescription drugs by the Centers for Medicare & Medicaid Services (CMS). You cannot get an exception for drugs that are excluded under Medicare Part D. Please refer to your **Evidence of Coverage** for more information about requesting exceptions, including the appeals process.

## **What do I do before I can talk to my network provider about changing my drugs or requesting an exception?**

In some cases, you might be taking Medicare Part D drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your network provider to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your network provider to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your Part D drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum of a 30-day supply of medication. After your first 30-day supply, we may cover an additional refill, as medically necessary. After you have used these refills, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

**For current members with level of care changes**, if you enter into or are discharged from a hospital, skilled nursing facility, or long-term care facility to a different care setting or home, this is what is known as a level of care change. When your level of care changes, you may require an additional fill of your medication. We will generally cover up to a one-month supply of your Part D drugs during this level of care transition period even if the drug is not on our Drug List.

## **For more information**

For more detailed information about your Kaiser Permanente prescription drug coverage, please review

your **Evidence of Coverage** and other plan materials.

If you have questions about our plan, please call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

## **Kaiser Permanente's Formulary**

The formulary that begins on the next page provides coverage information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the index that begins on page 125.

The first column of the chart lists the drug name. Brand-name drugs are generally capitalized (e.g., JARDIANCE) and generic drugs are generally listed in lower-case italics (e.g., *amoxicillin*).

The second column, "Drug Tier," will indicate what tier number the drug is in:

**Tier 1** – Preferred generic drugs (this tier includes some brand-name drugs)

**Tier 2** – Generic drugs (this tier includes some brand-name drugs)

**Tier 3** – Preferred brand-name drugs

**Tier 4** – Nonpreferred drugs (this tier includes both generic and brand-name drug)

**Tier 5** – Specialty-tier drugs (this tier includes both generic and brand-name drugs)

**Tier 6** – Injectable Part D vaccines (this tier includes brand-name drugs only)

Generally, the cost-sharing you will pay for your drugs depends on your coverage stage, the type of network pharmacy where you purchase your drugs, and your drug's cost-sharing tier on our formulary. Please refer to your **Evidence of Coverage** for the details about your Medicare Part D prescription drug coverage, including your cost-sharing amounts.

**Note:** If your coverage is through an employer-sponsored group plan, you may have different drug benefits and cost-sharing, and you may have coverage for other drugs that are not covered by Medicare Part D (non-Part D drugs). The amount you pay for non-Part D drugs does not count toward your total out-of-pocket expenditures, and if you are receiving Extra Help to pay for your Medicare Part D prescription drugs, you will not receive any Extra Help to pay for non-Part D drugs. Please check with your group benefits administrator or see your **Evidence of Coverage**.

The information in the Requirements/Limits column tells you if our plan has any special requirements for coverage of your drug. Certain strengths or forms of the drug may be subject to the utilization management codes listed below.

**PA** = Prior authorization restriction that always applies. You (or your physician) are required to prior authorization from our plan before you fill your prescription for this drug. Without prior approval, we may not cover this drug.

**PA NSO** = Prior authorization restriction for new starts only.

**B/D** = Prior authorization restriction for Part B vs. Part D determination. This drug may be eligible for payment under Medicare Part B or Part D. You (or your physician) are required to get prior authorization from our plan to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, we may not cover this drug.

**QL** = Quantity limit restriction. Our plan limits the amount of this drug that is covered per prescription, or within a specific time frame.

**ST** = Step therapy restriction that always applies. Before our plan will provide coverage for this drug, you must first try another drug(s) to treat your medical condition. This drug may only be covered if the other drug(s) does not work for you.

**ST NSO** = Step therapy restriction for new starts only.

**MO** = Mail-order drugs. You may order prescription refills of certain medications through our mail-order service online at [kp.org/wa](http://kp.org/wa) or by phone or mobile app, which may lower your costs for a three-month supply. Please contact us at least 5 days before your refills run out. Generally, you should receive them within 5 days. If not, please contact the mail-order phone number at 1-800-245-7979 or the phone number on the prescription label for assistance. Not all drugs can be mailed; restrictions and limitations apply.

**HI** = Home infusion drug. This prescription drug is covered under our medical benefit. For more information, please call Kaiser Permanente at the number listed on the front and back cover pages.

**NDS** = Non-extended Day Supply drugs that are dispensed up to a 30-day supply to monitor possible adverse effects and to avoid medication waste.

| Drug Name   | Drug Tier | Requirements/Limits |
|---|-----------|---------------------|
| <b>ANTI-INFECTIVE AGENTS</b>  |           |                     |
| <b>ANTHELMINTICS</b>  |           |                     |
| <i>albendazole tablet 200mg</i>   | 2         | NDS                 |
| <i>ivermectin tablet 3mg</i>  | 2         |                     |
| <i>praziquantel tablet 600mg</i>  | 2         | MO                  |
| <b>ANTIBACTERIALS</b>   |           |                     |

## Notice of Nondiscrimination

Kaiser Foundation Health Plan of Washington and Kaiser Foundation Health Plan of Washington Options, Inc. (“Kaiser Permanente”) comply with applicable Federal and Washington state civil rights laws and do not discriminate, exclude people, or treat them differently on the basis of race, color, national origin, age, disability, sex, sexual orientation, gender identity, or any other basis protected by applicable federal, state, or local law. We also:

- Provide free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, and other formats)
  - Assistive devices (magnifiers, Pocket Talkers, and other aids)
- Provide free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact Member Services at **1-888-901-4636** (TTY **711**).

If you believe that Kaiser Permanente has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, sex, sexual orientation, or gender identity, you can file a grievance with our Civil Rights Coordinator by writing to P.O. Box 35191, Mail Stop: RCR-A3S-03, Seattle, WA 98124-5191 or calling Member Services at the number listed above. You can file a grievance by mail, phone, or online at [kp.org/wa/feedback](https://kp.org/wa/feedback). If you need help filing a grievance, our Civil Rights Coordinator is available to help you.

You can also file a civil rights complaint with:

- The U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW., Room 509F, HHH Building, Washington, DC 20201, **1-800-368-1019**, **800-537-7697** (TDD)  
Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>
- The Washington State Office of the Insurance Commissioner, electronically through the Office of the Insurance Commissioner Complaint portal available at <https://www.insurance.wa.gov/file-complaint-or-check-your-complaint-status>, or by phone at **800-562-6900**, **360-586-0241** (TDD). Complaint forms are available at <https://fortress.wa.gov/oic/onlineservices/cc/pub/complaintinformation.aspx>
