

Kaiser Permanente

2027 Comprehensive Formulary

(List of Covered Drugs) or Drug List

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN

This formulary was updated on 09/25/2026. For more recent information or other questions, please contact the number for your Kaiser Permanente Medicare Advantage (HMO) Member Services at 1-888-901-4600 (TTY 711), seven days a week, 8 a.m. to 8 p.m, or visit kp.org/seniorrx.

H5050_RXFORM_2027_C

HPMS Approved Formulary File Submission 00027397

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to “we,” “us,” or “our,” it means Kaiser Permanente. When it refers to “plan” or “our plan,” it means Kaiser Permanente Medicare Advantage.

This document includes a Drug List (formulary) for our plan which is current as of September 25, 2026. For an updated Drug List (formulary), please visit our website at kp.org/seniorrx or contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2027, and from time to time during the year.

What is the Kaiser Permanente formulary?

In this document, we use the term Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by Kaiser Permanente in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Kaiser Permanente will generally cover the drugs listed on our formulary as long as the drug is medically necessary, the prescription is filled at a Kaiser Permanente network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your **Evidence of Coverage**.

Can the formulary (drug list) change?

Most changes in drug coverage happen on January 1, but Kaiser Permanente may add or remove drugs on formulary during the year, move them to different cost-sharing, tiers, or add new restrictions. We must follow Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: kp.org/seniorrx

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

Immediate substitutions of certain new versions of brand name drugs and original biological products. We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand-name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions. We can make these immediate changes only if we are adding a new generic version of a brand name drug or adding certain new biosimilar versions of an original biological product that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

- If you are currently taking the brand-name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.
- If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you that drug that is being changed. For more information, see the section below titled “How do I request an exception to the Kaiser Permanente formulary?”
- Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

Drugs removed from the market. If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.

Other changes. We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand-name drug or original biological product or move it to a different cost-sharing tier or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, the member may receive a 30-day supply of the drug and notice of the change.

- If we make other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Kaiser Permanente formulary?”

Changes that will not affect you if you are currently taking the drug.

Generally, if you are taking a drug on our 2027 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2027 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of September 25, 2026. To get updated information about the drugs covered by our plan, please call us. Our contact information appears on the front and back cover pages.

In the event of a midyear non-maintenance formulary change, we will provide details in the Medicare Part D **Explanation of Benefits** that we send you or **Provision of Notice** posted at kp.org/seniorrx.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical condition

The formulary begins on page 96. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Drugs”. If you know what your drug is used for, look for the category name in the list that begins 1. Then look under the category name for your drug.

Alphabetical listing

If you are not sure what category to look under, you should look for your drug in the index that begins on page 96. The index provides an alphabetical list of all of the drugs included in this document. Preferred generic and generic drugs, preferred brand-name and nonpreferred drugs, specialty-tier drugs, and vaccines are listed in the index. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

What are generic drugs?

Our plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs work just as well as and usually cost less than brand-name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription depending on state laws. Cost-sharing for preferred generic drugs may be different than for generic drugs. Please see your **Evidence of Coverage** for more information.

What are brand-name drugs?

Brand-name drugs are manufactured and sold by the pharmaceutical company that originally researched and developed the drug. When the patent on a brand-name drug expires, other pharmaceutical companies may manufacture and sell an FDA-approved generic version of the drug with the same active ingredient(s) at lower prices. Cost-sharing for preferred brand-name drugs may be different than for nonpreferred drugs. Please see your **Evidence of Coverage** for more information.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug, or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws may be substituted for the original biological

product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

- For discussion of drug types, please see the Evidence of Coverage, Chapter 5, Section 3.1 “The Drug List” tells which Part D drugs are covered.

What are specialty-tier drugs?

Specialty-tier drugs are very high-cost drugs approved by the FDA that are on our formulary.

What are Part D vaccines?

Part D vaccines are certain vaccines that are covered under Medicare Part D (for example, Shingrix for shingles, Adacel for Diphtheria, Tetanus, and Pertussis, which are approved by the FDA).

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Our plan may require you or your network provider to get prior authorization for certain drugs. This means that you will need to get approval from our plan based on specific criteria before you fill your prescriptions. If you don’t get approval, we may not cover the drug.
- **Quantity Limits:** For certain drugs, our plan limits the amount of the drug that Kaiser Permanente will cover. For example, our plan provides two inhalers (36 grams) for a one-month supply per prescription for albuterol HFA (brand equivalent Ventolin HFA). This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

Note: If your prescription has more than one refill remaining, you can only get one refill at a time, unless authorized because you will be away from our service area for an extended period of time. For certain drugs, we may limit the amount of an extended day supply (amounts that exceed a 30-day supply) that you can receive. Also, if there is a shortage in the marketplace, we may fill your prescription for a limited quantity.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy. Our contact

Formulary ID: 00027397 Last Updated: 09/25/2026

information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Kaiser Permanente formulary?” on page v for information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this document, you should first check [kp.org/seniorrx](https://www.kaiserpermanente.org/medicare/seniorrx) for the latest **Kaiser Permanente 2027 Comprehensive formulary** (updates to the formulary are posted monthly) or call our plan at the number listed on the front and back cover pages and confirm if your drug is covered.

If your Medicare Part D prescription drug is not on our **Kaiser Permanente 2027 Comprehensive formulary**, you have two options:

- You can ask your network provider to prescribe a similar drug that is included on our formulary.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Kaiser Permanente formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our **Kaiser Permanente 2027 Comprehensive formulary**. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- In accord with our tiering exception process, you can ask us to cover a Part D formulary drug at a lower cost-sharing level. If approved this would lower the amount you must pay for your drug. **Note:** Specialty tier (Tier 5) drugs are not eligible for a tier exception.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the alternative drugs included on the Formulary ID: 00027397 Last Updated: 09/25/2026

plan's formulary, the lower cost-sharing drug or applying the restrictions would not be as effective for you or would cause you to have adverse medical effects.

You or your prescriber should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception, you should submit a statement from your network provider supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

Please note: You can only request an exception for drugs that are considered Medicare Part D prescription drugs by the Centers for Medicare & Medicaid Services (CMS). You cannot get an exception for drugs that are excluded under Medicare Part D. Please refer to your **Evidence of Coverage** for more information about requesting exceptions, including the appeals process.

What can I do if my drug is not on the formulary or has a restriction?

In some cases, you might be taking Medicare Part D drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your network provider about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover or requesting a formulary exception so that we will cover the drug you take. While you and your network provider determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your Part D drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we will allow refills to provide up to a maximum of a 30-day supply of medication. If coverage is not approved after your first 30-day supply, we may cover an additional refill, as medically necessary. After you have used these refills, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

For current members with level of care changes, if you enter into or are discharged from a hospital, skilled nursing facility, or long-term care facility to a different care setting or home, this is what is known as a level of care change. When your level of care changes, you may require an additional fill of your medication. We will generally cover up to a one-month supply of your Part D drugs during this level of care transition period even if the drug is not on our Drug List.

For more information

For more detailed information about your Kaiser Permanente prescription drug coverage, please review your **Evidence of Coverage** and other plan materials.

If you have questions about our plan, please call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE (1-800-633-4227)** 24 hours a day/7 day a week. TTY users should call **1-877-486-2048**. Or, visit <http://www.medicare.gov>.

Kaiser Permanente's formulary

The formulary that begins on the next page provides coverage information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the index that begins on page 96.

The first column of the chart lists the drug name. Brand-name drugs are generally capitalized (e.g., TOBREX) and generic drugs are generally listed in lower-case italics (e.g., *amoxicillin*).

The second column, "Drug Tier," will indicate what tier number the drug is in:

Tier 1 – Preferred generic drugs (this tier includes some brand-name drugs)

Tier 2 – Generic drugs (this tier includes some brand-name drugs)

Tier 3 – Preferred brand-name drugs (this tier includes some generic drugs)

Tier 4 – Nonpreferred drugs (this tier includes both generic and brand-name drugs)

Tier 5 – Specialty-tier drugs (this tier includes both generic and brand-name drugs)

Tier 6 – Part D vaccines (this tier includes brand-name drugs only)

Generally, the cost-sharing you will pay for your drugs depends on your coverage stage, the type of network pharmacy where you purchase your drugs, and your drug's cost-sharing tier on our formulary. Please refer to your **Evidence of Coverage** for the details about your Medicare Part D prescription drug coverage, including your cost-sharing amounts.

Note: If your coverage is through an employer-sponsored group plan, you may have different drug benefits and cost-sharing, and you may have coverage for other drugs that are not covered by Medicare Part D (non-Part D drugs). The amount you pay for non-Part D drugs does not count toward your total out-of-pocket expenditures, and if you are receiving Extra Help to pay for your Medicare Part D prescription drugs, you will not receive any Extra Help to pay for non-Part D drugs. Please check with your group benefits administrator or see your **Evidence of Coverage**.

The information in the Requirements/Limits column tells you if our plan has any special requirements for coverage of your drug. Certain strengths or forms of the drug may be subject to the utilization management codes listed below.

PA = Prior authorization restriction that always applies. You (or your physician) are required to prior authorization from our plan before you fill your prescription for this drug. Without prior approval, we may not cover this drug.

PA NSO = Prior authorization restriction for new starts only.

B/D = Prior authorization restriction for Part B vs. Part D determination. This drug may be eligible for payment under Medicare Part B or Part D. You (or your physician) are required to get prior authorization from our plan to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, we may not cover this drug.

QL = Quantity limit restriction. Our plan limits the amount of this drug that is covered per prescription, or within a specific time frame.

ST = Step therapy restriction that always applies. Before our plan will provide coverage for this drug, you must first try other drug(s) to treat your medical condition. This drug may only be covered if the other drug(s) does not work for you.

ST NSO = Step therapy restriction for new starts only.

MO = Mail-order drugs. You may order prescription refills of certain medications through our mail-order service online at kp.org/wa or by phone or mobile app, which may lower your costs for a three-month supply. Please contact us at least 5 days before your refills run out. Generally, you should receive them within 5 days. If not, please contact the mail-order phone number at 1-800-245-7979 or the phone number on the prescription label for assistance. Not all drugs can be mailed; restrictions and limitations apply.

HI = Home infusion drug. This prescription drug is covered under our medical benefit. For more information, please call Kaiser Permanente at the number listed on the front and back cover pages.

NDS = Non-extended Day Supply drugs that are dispensed up to a 30-day supply to monitor possible adverse effects and to avoid medication waste.

This formulary was updated on 09/25/2026. For more recent information or other questions, please contact Kaiser Permanente Medicare Advantage Member Services at 1-888-901-4600 (TTY 711), seven days a week, from 8 a.m. to 8 p.m, or visit **kp.org/seniorrx**.

KAISER PERMANENTE®
H5050_RXFORM_2027_C

HPMS Approved Formulary File Submission 00027397

Nondiscrimination Notice

Kaiser Foundation Health Plan of Washington and Kaiser Foundation Health Plan of Washington Options, Inc. (“Kaiser Permanente”) complies with applicable Federal and Washington state civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, sex, sexual orientation, or gender identity. Kaiser Permanente does not exclude people or treat them less favorably because of race, color, national origin (including limited English proficiency and primary language), age, disability, sex, sex characteristics (including intersex traits), pregnancy (or related conditions), sex stereotypes, sexual orientation, or gender identity. We also:

- Provide people with disabilities reasonable modifications and free appropriate auxiliary aids and services to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, braille, audio, accessible electronic formats, other formats)
- Provide free language assistance services to people whose primary language is not English, which may include:
 - Qualified interpreters
 - Information written in other languages

If you need reasonable modifications, appropriate auxiliary aids and services, or language assistance services, contact Member Services at **1-888-901-4636** (TTY **711**).

If you believe that Kaiser Permanente has failed to provide these services or discriminated in another way on the basis of race, color, national origin (including limited English proficiency and primary language), age, disability, sex, sex characteristics (including intersex traits), pregnancy (or related conditions), sex stereotypes, sexual orientation, or gender identity, you can file a grievance with our Civil Rights Coordinator at P.O. Box 35191, Mail Stop: RCR-A1N-22, Seattle, WA 98124-5191 or by calling **1-888-901-4636** (TTY **711**). You can file a grievance in person or by mail, phone, or online at kp.org/wa/feedback. If you need help filing a grievance, our Civil Rights Coordinator is available to help you.

The notice of nondiscrimination is available at <https://healthy.kaiserpermanente.org/washington/language-assistance/nondiscrimination-notice>

You can also file a civil rights complaint with:

- The U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW, Room 509F HHH Building, Washington, DC 20201; **1-800-368-1019, 800-537-7697** (TDD). Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>
- The Washington State Office of the Insurance Commissioner, electronically through the Office of the Insurance Commissioner Complaint portal available at <https://www.insurance.wa.gov/file-complaint-or-check-your-complaint-status>, or by phone at **800-562-6900, 360-586-0241** (TDD). Complaint forms are available at <https://fortress.wa.gov/oic/online services/cc/pub/complaintinformation.aspx>

Help in your language
