

This is an educational letter sent to all Kaiser Permanente Medicare health plan members. It isn't specific to your health care circumstances or any treatment you may receive.

Dear Member,

This information is being provided to all Kaiser Permanente Medicare health plan members for educational purposes only about opioid pain medicines. Opioid pain medicines such as Oxycodone (Percocet®), Hydrocodone (Norco®), Fentanyl, and Morphine are strong medications. They carry serious risks of addiction and overdose. As your health plan provider, we want you to be informed about the potential risks of using opioids.

What are opioid pain medicines?

Opioid medicines can be used to help treat moderate to severe pain when other options have not worked. They may not improve all your pain and over time opioids may also change the way your brain handles pain signals. This may lead to even more pain and/or other health symptoms like change in mood or sleep and less ability to perform daily activities. For these reasons, long-term use of opioids should be monitored closely by a doctor.

What are the side effects and long-term risks of taking opioids?

- **Tolerance** – Over time, opioids are less effective, with people needing higher doses to get the same level of pain relief.
- **Physical dependence** – Withdrawal symptoms can happen when either suddenly stopping the medicine or lowering the dose by a large amount.
- **Addiction** – You may not be able to control your opioid use.
- **Physical side effects** – Opioids can cause nausea, vomiting, and constipation.
- **Drowsiness** – Opioids can affect judgment and decision making. These side effects can cause falls and motor vehicle accidents with serious injuries.
- **Problems thinking clearly, low energy, and depression** – These side effects can impact a person's ability to work and do daily activities.
- **Sleep apnea or impaired breathing while sleeping** – Opioids may cause sleep problems that can cause daytime fatigue, impair thinking, and in some cases slow or even stop your breathing with inappropriate use.
- **Low hormone levels** – Long-term opioid use may lead to low sex drive, low energy, depressed mood, slower recovery from muscle injuries, and thinning of the bones.
- **Accidental overdose and death** – These risks increase the longer a person takes opioids.

How do I safely take opioid medicines?

- **Follow directions carefully.** Always follow your doctor's directions and never share your medicines with others.
- **Be cautious.** Do not take your medicines more often than prescribed. Talk to your doctor or pharmacist before you take any extra doses.
- **Stay away from dangerous drug interactions.** Talk to your doctor or pharmacist about all the medicines you take. Mixing opioids with any of the following can greatly add to the risk of overdose: **alcohol, sleeping pills** (such as zolpidem [Ambien®] or zaleplon [Sonata®]), **anxiety drugs** (such as diazepam [Valium®], alprazolam [Xanax®], and lorazepam [Ativan®]), and **muscle relaxers** (such as carisoprodol [Soma®], baclofen [Lioresal®], and others).

- **Talk to your doctor about alternative pain relievers.** If your pain is under control, ask your doctor if you should take them less often or change to other pain relief options.
- **Naloxone: Ask your doctor or pharmacist about a naloxone rescue kit.** Opioids can sometimes slow or even stop your breathing. Naloxone is a medicine that can undo the effect of opioids in your body. Naloxone is safe and can save your life. Talk to your doctor or pharmacist to see if it should be prescribed to you. Having naloxone on hand is recommended for all patients taking opioids regularly.
- **Safe storage of opioids.** Keep your opioid medicines in their original package and with the original labels. Store them in a place that is out of reach of children and cannot be easily accessed by others (e.g., locked cabinet).
- **Follow safe disposal procedures.** For safety reasons, unused medicines should be promptly disposed of by depositing medication into a collection kiosk available at many Kaiser Permanente pharmacies, using an approved send-away envelope, or at a "Drug Take Back Day" event. Send-away envelopes are available for members at select Kaiser Permanente pharmacies.

What alternative pain management options should I consider?

Talk to your doctor about ways to manage your pain that do not involve opioids and what is most appropriate for you. Some of these options may work better and have fewer risks and side effects.

Depending on the type of pain you are experiencing, options may include:

- Over-the-counter medications such as ibuprofen (Motrin®), acetaminophen (Tylenol®), naproxen (Aleve®), or topicals like capsaicin, diclofenac gel (Voltaren®), or trolamine salicylate (Aspercreme®).
- Prescription-strength anti-inflammatory medications such as meloxicam (Mobic®), diclofenac (Voltaren®), and etodolac (Lodine®). Long-term use is not recommended for older adults due to risk of side effects.
- Some prescription non-opioid medications that target pain-producing nerves, such as gabapentin (Neurontin®) and pregabalin (Lyrica®).
- Chiropractor services, physical and other therapies, heat or cold compresses, exercise, acupuncture, and cognitive behavioral therapy.

Your doctor may recommend treatment options that your plan does not cover. If this happens, contact Member Services at the phone number on the back of your ID card or visit the CMS web page that describes coverage under Medicare Parts A and B to understand your options

(<https://www.medicare.gov/coverage/pain-management>).

What Opioid Treatment Services are available?

Medicare under Part B (medical insurance) covers Opioid Treatment Programs (OTPs) for opioid use disorder (OUD) treatment. For information on your *plan's benefits* related to treatment for prescription drug abuse, including medication-assisted treatment, mental health, and counseling services, please see your **Evidence of Coverage** or call Member Services at the phone number on the back of your ID card.

We're here for you

If you have any questions about this information provided in this insert or you would like to find out more about ways to manage pain, please call Member Services at the phone number on the back of your ID card.

Sincerely,
Kaiser Permanente

Section 1.5 – Changes to Part D prescription drug coverage

Changes to our "Drug List"

Our list of covered drugs is called a formulary, or "Drug List." A copy of our "Drug List" is provided electronically at kp.org/seniorrx.

We made changes to our "Drug List," which could include removing or adding drugs, changing the restrictions that apply to our coverage for certain drugs or moving them to a different cost-sharing tier. **Review our "Drug List" to make sure your drugs will be covered next year and to see if there will be any restrictions, or if your drug has been moved to a different cost-sharing tier.**

Most of the changes in our "Drug List" are new for the beginning of each year. However, during the year, we might make other changes that are allowed by Medicare rules. For instance, we can immediately remove drugs considered unsafe by the FDA or withdrawn from the market by a product manufacturer. We update our online "Drug List" to provide the most up-to-date list of drugs.

If you are affected by a change in drug coverage at the beginning of the year or during the year, please review Chapter 9 of your **Evidence of Coverage** and talk to your doctor to find out your options, such as asking for a temporary supply, applying for an exception, and/or working to find a new drug. You can also contact Member Services for more information.

Changes to prescription drug costs

Note: If you are in a program that helps pay for your drugs ("Extra Help"), **the information about costs for Part D prescription drugs does not apply to you.** We sent you a separate insert, called the **Evidence of Coverage Rider for People Who Get Extra Help Paying for Prescription Drugs** (also called the Low-Income Subsidy Rider or the LIS Rider), which tells you about your drug costs. If you receive "Extra Help" and you haven't received this insert by September 30, 2023, please call Member Services and ask for the LIS Rider.

There are four **drug payment stages**. The information below shows the changes to the first two stages—the Yearly Deductible Stage and the Initial Coverage Stage. (Most members do not reach the other two stages—the Coverage Gap Stage or the Catastrophic Coverage Stage.)

Changes to the Deductible Stage

Stage	2023 (this year)	2024 (next year)

Changes to the Coverage Gap and Catastrophic Coverage Stages

The other two drug coverage stages—the Coverage Gap Stage and the Catastrophic Coverage Stage—are for people with high drug costs. **Most members do not reach the Coverage Gap Stage or the Catastrophic Coverage Stage.**

Beginning in 2024, if you reach the Catastrophic Coverage Stage, you pay nothing for covered Part D drugs.

For specific information about your costs in these stages, look at Chapter 6, Sections 6 and 7, in your **Evidence of Coverage**.

Section 2 — Deciding which plan to choose

Section 2.1 – If you want to stay in Senior Advantage Maui plan

To stay in our plan, you don't need to do anything. If you do not sign up for a different plan or change to Original Medicare by December 7, you will automatically be enrolled in Senior Advantage Maui plan.

Section 2.2 – If you want to change plans

We hope to keep you as a member next year, but if you want to change plans for 2024, follow these steps:

Step 1: Learn about and compare your choices

- You can join a different Medicare health plan.
- Or you can change to Original Medicare. If you change to Original Medicare, you will need to decide whether to join a Medicare drug plan. If you do not enroll in a Medicare drug plan, please see Section 1.1 regarding a potential Part D late enrollment penalty.

To learn more about Original Medicare and the different types of Medicare plans, use the Medicare Plan Finder (www.medicare.gov/plan-compare), read the **Medicare & You 2024** handbook, call your State Health Insurance Assistance Program (see Section 4), or call Medicare (see Section 6.2).

As a reminder, Kaiser Permanente offers other Medicare health plans. These other plans may differ in coverage, monthly premiums, and cost-sharing amounts.

Step 2: Change your coverage

- **To change to a different Medicare health plan**, enroll in the new plan. You will automatically be disenrolled from Senior Advantage Maui plan.

- To **change to Original Medicare with a prescription drug plan**, enroll in the new drug plan. You will automatically be disenrolled from Senior Advantage Maui plan.
- To **change to Original Medicare without a prescription drug plan**, you must either:
 - ◆ Send us a written request to disenroll. Contact Member Services if you need more information on how to do so.
 - ◆ Or contact **Medicare** at **1-800-MEDICARE (1-800-633-4227)**, 24 hours a day, 7 days a week, and ask to be disenrolled. TTY users should call **1-877-486-2048**.

Section 3 — Deadline for changing plans

If you want to change to a different plan or to Original Medicare for next year, you can do it from **October 15 until December 7**. The change will take effect on January 1, 2024.

Are there other times of the year to make a change?

In certain situations, changes are also allowed at other times of the year. Examples include people with Medicaid, those who get "Extra Help" paying for their drugs, those who have or are leaving employer coverage, and those who move out of the service area.

If you enrolled in a Medicare Advantage plan for January 1, 2024, and don't like your plan choice, you can switch to another Medicare health plan (either with or without Medicare prescription drug coverage) or switch to Original Medicare (either with or without Medicare prescription drug coverage) between January 1 and March 31, 2024.

If you recently moved into, currently live in, or just moved out of an institution (like a skilled nursing facility or long-term care hospital), you can change your Medicare coverage **at any time**. You can change to any other Medicare health plan (either with or without Medicare prescription drug coverage) or switch to Original Medicare (either with or without a separate Medicare prescription drug plan) at any time.

Section 4 — Programs that offer free counseling about Medicare

The State Health Insurance Assistance Program (SHIP) is an independent government program with trained counselors in every state. In Hawaii, the SHIP is called Hawaii SHIP.

It is a state program that gets money from the federal government to give **free** local health insurance counseling to people with Medicare. Hawaii SHIP counselors can help you with your Medicare questions or problems. They can help you understand your Medicare plan choices and answer questions about switching plans. You can call Hawaii SHIP toll-free at **1-888-875-9229** (TTY users should call **1-866-810-4379**).

You can learn more about Hawaii SHIP by visiting their website (www.hawaiiiship.org).

Section 5 — Programs that help pay for prescription drugs

You may qualify for help paying for prescription drugs. Below we list different kinds of help:

- **"Extra Help" from Medicare.** People with limited incomes may qualify for "Extra Help" to pay for their prescription drug costs. If you qualify, Medicare could pay up to 75% or more of your drug costs, including monthly prescription drug premiums, annual deductibles, and coinsurance. Additionally, those who qualify will not have a coverage gap or late enrollment penalty. To see if you qualify, call:
 - ◆ **1-800-MEDICARE (1-800-633-4227).** TTY users should call **1-877-486-2048**, 24 hours a day/7 days a week;
 - ◆ The Social Security office at **1-800-772-1213** between 8 a.m. and 7 p.m., Monday through Friday, for a representative. Automated messages are available 24 hours a day. TTY users should call **1-800-325-0778**; or
 - ◆ Your state Medicaid office (applications).
- **Prescription cost-sharing assistance for persons with HIV/AIDS.** The AIDS Drug Assistance Program (ADAP) helps ensure that ADAP-eligible individuals living with HIV/AIDS have access to life-saving HIV medications. Individuals must meet certain criteria, including proof of state residence and HIV status, low income as defined by the state, and uninsured/underinsured status. Medicare Part D prescription drugs that are also covered by ADAP qualify for prescription cost-sharing assistance through the **HIV Drug Assistance Program (HDAP)**.

For information on eligibility criteria, covered drugs, or how to enroll in the program, please call the HIV Drug Assistance Program (HDAP) at **1-808-733-9360**.
