

**This is an educational letter sent to all Kaiser Permanente Medicare health plan members. It isn't specific to your health care circumstances or any treatment you may receive.**

Dear Member,

This information is being provided to all Kaiser Permanente Medicare health plan members for educational purposes only about opioid pain medicines. Opioid pain medicines such as Oxycodone (Percocet®), Hydrocodone (Norco®), Fentanyl, and Morphine are strong medications. They carry serious risks of addiction and overdose. As your health plan provider, we want you to be informed about the potential risks of using opioids.

### ***What are opioid pain medicines?***

Opioid medicines can be used to help treat moderate to severe pain when other options have not worked. They may not improve all your pain and over time opioids may also change the way your brain handles pain signals. This may lead to even more pain and/or other health symptoms like change in mood or sleep and less ability to perform daily activities. For these reasons, long-term use of opioids should be monitored closely by a doctor.

### ***What are the side effects and long-term risks of taking opioids?***

- **Tolerance** – Over time, opioids are less effective, with people needing higher doses to get the same level of pain relief.
- **Physical dependence** – Withdrawal symptoms can happen when either suddenly stopping the medicine or lowering the dose by a large amount.
- **Addiction** – You may not be able to control your opioid use.
- **Physical side effects** – Opioids can cause nausea, vomiting, and constipation.
- **Drowsiness** – Opioids can affect judgment and decision making. These side effects can cause falls and motor vehicle accidents with serious injuries.
- **Problems thinking clearly, low energy, and depression** – These side effects can impact a person's ability to work and do daily activities.
- **Sleep apnea or impaired breathing while sleeping** – Opioids may cause sleep problems that can cause daytime fatigue, impair thinking, and in some cases slow or even stop your breathing with inappropriate use.
- **Low hormone levels** – Long-term opioid use may lead to low sex drive, low energy, depressed mood, slower recovery from muscle injuries, and thinning of the bones.
- **Accidental overdose and death** – These risks increase the longer a person takes opioids.

### ***How do I safely take opioid medicines?***

- **Follow directions carefully.** Always follow your doctor's directions and never share your medicines with others.
- **Be cautious.** Do not take your medicines more often than prescribed. Talk to your doctor or pharmacist before you take any extra doses.
- **Stay away from dangerous drug interactions.** Talk to your doctor or pharmacist about all the medicines you take. Mixing opioids with any of the following can greatly add to the risk of overdose: **alcohol, sleeping pills** (such as zolpidem [Ambien®] or zaleplon [Sonata®]), **anxiety drugs** (such as diazepam [Valium®], alprazolam [Xanax®], and lorazepam [Ativan®]), and **muscle relaxers** (such as carisoprodol [Soma®], baclofen [Lioresal®], and others).

- **Talk to your doctor about alternative pain relievers.** If your pain is under control, ask your doctor if you should take them less often or change to other pain relief options.
- **Naloxone: Ask your doctor or pharmacist about a naloxone rescue kit.** Opioids can sometimes slow or even stop your breathing. Naloxone is a medicine that can undo the effect of opioids in your body. Naloxone is safe and can save your life. Talk to your doctor or pharmacist to see if it should be prescribed to you. Having naloxone on hand is recommended for all patients taking opioids regularly.
- **Safe storage of opioids.** Keep your opioid medicines in their original package and with the original labels. Store them in a place that is out of reach of children and cannot be easily accessed by others (e.g., locked cabinet).
- **Follow safe disposal procedures.** For safety reasons, unused medicines should be promptly disposed of by depositing medication into a collection kiosk available at many Kaiser Permanente pharmacies, using an approved send-away envelope, or at a "Drug Take Back Day" event. Send-away envelopes are available for members at select Kaiser Permanente pharmacies.

### ***What alternative pain management options should I consider?***

Talk to your doctor about ways to manage your pain that do not involve opioids and what is most appropriate for you. Some of these options may work better and have fewer risks and side effects.

Depending on the type of pain you are experiencing, options may include:

- Over-the-counter medications such as ibuprofen (Motrin®), acetaminophen (Tylenol®), naproxen (Aleve®), or topicals like capsaicin, diclofenac gel (Voltaren®), or trolamine salicylate (Aspercreme®).
- Prescription-strength anti-inflammatory medications such as meloxicam (Mobic®), diclofenac (Voltaren®), and etodolac (Lodine®). Long-term use is not recommended for older adults due to risk of side effects.
- Some prescription non-opioid medications that target pain-producing nerves, such as gabapentin (Neurontin®) and pregabalin (Lyrica®).
- Chiropractor services, physical and other therapies, heat or cold compresses, exercise, acupuncture, and cognitive behavioral therapy.

Your doctor may recommend treatment options that your plan does not cover. If this happens, contact Member Services at the phone number on the back of your ID card or visit the CMS web page that describes coverage under Medicare Parts A and B to understand your options

(<https://www.medicare.gov/coverage/pain-management>).

### ***What Opioid Treatment Services are available?***

For information on your *plan's benefits* related to treatment for prescription drug abuse, including medication-assisted treatment, mental health, and counseling services, please see your **Evidence of Coverage** or call Member Services at the phone number on the back of your ID card.

### ***We're here for you***

## B1. Information about our plan

- Kaiser Permanente is a health plan that contracts with both Medicare and Medi-Cal to provide benefits of both programs to members.
- Coverage under Kaiser Permanente Senior Advantage Medicare Medi-Cal Plan is qualifying health coverage called “minimum essential coverage.” It satisfies the Patient Protection and Affordable Care Act’s (ACA) individual shared responsibility requirement. Visit the Internal Revenue Service (IRS) website at [www.irs.gov/Affordable-Care-Act/Individuals-and-Families](http://www.irs.gov/Affordable-Care-Act/Individuals-and-Families) for more information on the individual shared responsibility requirement.
- When this *Annual Notice of Changes* says “we,” “us,” “our,” or “our plan,” it means the Medicare Medi-Cal Plan.

## B2. Important things to do

- **Check if there are any changes to our benefits and costs that may affect you.**
  - Are there any changes that affect the services you use?
  - Review benefit and cost changes to make sure they will work for you next year.
  - Refer to **Section E1** for information about benefit and cost changes for our plan.
- **Check if there are any changes to our prescription drug coverage that may affect you.**
  - Will your drugs be covered? Are they in a different cost-sharing tier? Can you use the same pharmacies?
  - Review changes to make sure our drug coverage will work for you next year.
  - Refer to **Section E2** for information about changes to our drug coverage.
  - Your drug costs may have risen since last year.
    - Talk to your doctor about lower cost alternatives that may be available for you; this may save you in annual out-of-pocket costs throughout the year.

- Keep in mind that your plan benefits determine exactly how much your own drug costs may change.
- **Check if your providers and pharmacies will be in our network next year.**
  - Are your doctors, including your specialists, in our network? What about your pharmacy? What about the hospitals or other providers you use?
  - Refer to **Section D** for information about our *Provider and Pharmacy Directory*.
- **Think about your overall costs in the plan.**
  - How much will you spend out-of-pocket for the services and prescription drugs you use regularly?
  - How do the total costs compare to other coverage options?
- **Think about whether you are happy with our plan.**

#### **If you decide to stay with Kaiser Permanente Senior Advantage Medicare Medi-Cal:**

If you want to stay with us next year, it's easy – you don't need to do anything. If you don't make a change, you automatically stay enrolled in Kaiser Permanente Senior Advantage Medicare Medi-Cal.

#### **If you decide to change plans:**

If you decide other coverage will better meet your needs, you may be able to switch plans (refer to **Section G2** for more information). If you enroll in a new plan, or change to Original Medicare, your new coverage will begin on the first day of the following month.

## E2. Changes to prescription drug coverage

### Changes to our Drug List

An updated *List of Covered Drugs* is located on our website at [kp.org/seniorrx](https://kp.org/seniorrx). You may also call Member Services at the numbers at the bottom of the page for updated drug information or to ask us to mail you a *List of Covered Drugs*.

We made changes to our Drug List, including changes to the drugs we cover and changes to the restrictions that apply to our coverage for certain drugs.

Review the Drug List to **make sure your drugs will be covered next year** and to find out if there are any restrictions.

If you are affected by a change in drug coverage, we encourage you to:

- Work with your doctor (or other prescriber) to find a different drug that we cover.
  - You can call Member Services at the numbers at the bottom of the page to ask for a list of covered drugs that treat the same condition.
  - This list can help your provider find a covered drug that might work for you.
- Ask us to cover a temporary supply of the drug.
  - In some situations, we cover a **temporary** supply of the drug during the first 90 days of the calendar year.
  - This temporary supply is for up to 30 days. (To learn more about when you can get a temporary supply and how to ask for one, refer to **Chapter 5** of your *Member Handbook*.)
  - When you get a temporary supply of a drug, talk with your doctor about what to do when your temporary supply runs out. You can either switch to a different drug our plan covers or ask us to make an exception for you and cover your current drug.
  - All currently approved formulary exceptions expire at the end of each calendar year and must be resubmitted for approval at the beginning of the new year.

**If you have questions**, please call Kaiser Permanente Member Services at **1-800-443-0815** (TTY 711), 8 a.m. to 8 p.m., 7 days a week. The call is free. **For more information**, visit [kp.org/medicare](https://kp.org/medicare).

### Changes to prescription drug costs

There are two payment stages for your Medicare Part D prescription drug coverage under our plan. How much you pay depends on which stage you are in when you get a prescription filled or refilled. These are the two stages:

<b>Stage 1 Initial Coverage Stage</b>	<b>Stage 2 Catastrophic Coverage Stage</b>
During this stage, our plan pays part of the costs of your drugs, and you pay your share. Your share is called the copay.  You begin this stage when you fill your first prescription of the year.	During this stage, the plan pays all of the costs of your drugs through December 31, 2024.  You begin this stage after you pay a certain amount of out-of-pocket costs.

The Initial Coverage Stage ends when your total out-of-pocket costs for prescription drugs reaches **\$8,000**. At that point, the Catastrophic Coverage Stage begins. Our plan covers all of your drug costs from then until the end of the year. Refer to **Chapter 6** of your *Member Handbook* for more information on how much you will pay for prescription drugs.

### E3. Stage 1: “Initial Coverage Stage”

During the Initial Coverage Stage, our plan pays a share of the cost of your covered prescription drugs, and you pay your share. Your share is called the copay. The copay depends on what cost-sharing tier the drug is in and where you get it. You pay a copay each time you fill a prescription. If your covered drug costs less than the copay, you pay the lower price.

**We moved some of the drugs on our Drug List to a lower or higher drug tier.** If your drugs move from tier to tier, this could affect your copay. To find out if your drugs are in a different tier, look them up in our Drug List.

---

**If you have questions**, please call Kaiser Permanente Member Services at **1-800-443-0815** (TTY 711), 8 a.m. to 8 p.m., 7 days a week. The call is free. **For more information**, visit **kp.org/medicare**.

The following table shows your costs for drugs in each of our two drug tiers. These amounts apply **only** during the time when you're in the Initial Coverage Stage.

	2023 (this year)	2024 (next year)
<p><b>Drugs in Tiers 1-2</b> (includes generic drugs)</p> <p>Cost for a one-month supply of a drug in Tier 1 and 2 that are filled at a network pharmacy</p>	<p>Your copay for a one-month (30-day supply) is <b>\$0-\$4.15 per prescription</b>, depending on your level of "Extra Help."</p>	<p>Your copay for a one-month (30-day supply) is <b>\$0-\$4.50 per prescription</b>, depending on your level of "Extra Help."</p>
<p><b>Drugs in Tiers 3-5</b> (includes brand-name and specialty drugs)</p> <p>Cost for a one-month supply of a drug in Tier 3 through 5 that are filled at a network pharmacy</p>	<p>Your copay for a one-month (30-day supply) is <b>\$0-\$10.35 per prescription</b>, depending on your level of "Extra Help."</p>	<p>Your copay for a one-month (30-day supply) is <b>\$0-\$11.20 per prescription</b>, depending on your level of "Extra Help."</p>

The Initial Coverage Stage ends when your total out-of-pocket costs reach **\$8,000**. At that point the Catastrophic Coverage Stage begins. The plan covers all of your drug costs from then until the end of the year. Refer to **Chapter 6** of your *Member Handbook* for more information about how much you pay for prescription drugs.

#### **E4. Stage 2: "Catastrophic Coverage Stage"**

When you reach the out-of-pocket limit **\$8,000** for your prescription drugs, the Catastrophic Coverage Stage begins. You stay in the Catastrophic Coverage Stage until the end of the calendar year.

- To locate more information about your prescriptions that Medicare and Medi-Cal cover, refer to the *List of Covered Drugs*.

## G. Choosing a plan

### G1. Staying in our plan

We hope to keep you as a plan member. You do not have to do anything to stay in our plan. If you do **not** change to another Medicare plan or change to Original Medicare, you automatically stay enrolled as a member of our plan for 2024.

### G2. Changing plans

Most people with Medicare can end their membership during certain times of the year. Because you have Medi-Cal, you may be able to end your membership in our plan or switch to a different plan one time during each of the following **Special Enrollment Periods**:

- January to March
- April to June
- July to September

In addition to these three Special Enrollment periods, you may end your membership in our plan during the following periods:

- The **Annual Enrollment Period**, which lasts from October 15 to December 7. If you choose a new plan during this period, your membership in our plan ends on December 31 and your membership in the new plan starts on January 1.
- The **Medicare Advantage (MA) Open Enrollment Period**, which lasts from January 1 to March 31. If you choose a new plan during this period, your membership in the new plan starts the first day of the next month.

There may be other situations when you are eligible to make a change to your enrollment. For example, when:

## H5. California Department of Managed Health Care

The California Department of Managed Health Care (DMHC) is responsible for regulating health care service plans. The DMHC Help Center can help you with appeals and complaints about Medi-Cal services. If you have a grievance against your health plan, you should first telephone your health plan at **1-800-443-0815** and use your health plan's grievance process before contacting the department. Utilizing this grievance procedure does not prohibit any potential legal rights or remedies that may be available to you. If you need help with a grievance involving an emergency, a grievance that has not been satisfactorily resolved by your health plan, or a grievance that has remained unresolved for more than 30 days, you may call the department for assistance. You may also be eligible for an Independent Medical Review (IMR). If you are eligible for IMR, the IMR process will provide an impartial review of medical decisions made by a health plan related to the medical necessity of a proposed service or treatment, coverage decisions for treatments that are experimental or investigational in nature and payment disputes for emergency or urgent medical services. The department also has a toll-free telephone number (**1-888-466-2219**) and a TDD line (**1-877-688-9891**) for the hearing and speech impaired. The department's internet website [www.dmhc.ca.gov](http://www.dmhc.ca.gov) has complaint forms, IMR application forms and instructions online.
