

MEASURING CARE QUALITY IN OUR HOSPITALS

Kaiser Permanente Plan Hospital, Georgia Region
Piedmont Fayette Hospital

Re: Kaiser Permanente Plan Hospital, Georgia Region Piedmont Fayette Hospital

1255 Highway 54 West
Fayetteville, GA 30214

At Kaiser Permanente of Georgia, we use information from external accrediting bodies and external quality reports to assist in the monitoring of the quality of care and services provided at our contracted hospitals. Links to this information are provided below. This provides access to reliable information, about the quality of care delivered by our hospitals, for members and the public.

Accreditation: DNV-GL

Piedmont Fayette Hospital holds hospital accreditation through DNV-GL, an independent organization which measures healthcare quality and safety in hospitals. Use the following link to find more information about Piedmont Fayette Hospital's accreditation status;

Quality Reporting: The Leapfrog Group

The annual Leapfrog Hospital Survey assesses hospital safety, quality, and efficiency based on national performance measures. These measures cover a broad spectrum of hospital services, processes, and structures. The measures also provide hospitals with the opportunity to benchmark the progress they are making in improving the safety, quality, and efficiency of the care they deliver. Use the following link to find the results of Piedmont Fayette Hospital's latest survey:
