**Jessica H.:** Kaiser Permanente has really taken care of all of me.

When I tore my ACL, I got everything I needed in the same day, from X-rays to blood work.

A few years later I went to their urgent care for headaches and was diagnosed with a brain tumor.

They were so caring and attentive.

They made sure I got the surgery and the treatment I needed to make it through.

And now I'm trying to have a baby and I know Kaiser Permanente will be here every step of the way.

They've just done an incredible job.

**Voice-over:** Kaiser Permanente.
