

Transcript of Video: Dental Benefits

Did you know you may be able to receive Dental Benefits along with your Kaiser Permanente health plan?

With Dental Benefits, you have access to preventive dental care services, such as routine exams and cleanings.

Routine dental care may help lower risks linked to diabetes, stroke, cancer, and heart disease.

Plus, your dentist may also be able to spot and treat conditions that raise your risk for gum disease or other dental issues.

Take advantage of all the coverage offered to you and your family. (Product offerings may vary by region. Some dental benefits are included in base medical plans for some regions.)

Contact your HR team today to learn more about Dental Benefits.
