

Baby Oliver

John

We had a little scare on a Wednesday night and they came in like, okay, he's coming now. We know it's three months early. We've got the NICU here.

Julia

He was really little. I think about a pound a little more.

Melinda

When they first come out, I think that they don't look like what the parents are going to expect.

Julia

But when you see those babies come back in, and the parents are so excited. I don't know what else there is, for me, but I'm a NICU nurse.

John

I wouldn't have wanted to end up anywhere else.
