

Medicare Star Quality Ratings

What's the best way to choose a Medicare Health Plan? Use the Medicare Star Quality Ratings.

Each year the Centers for Medicare and Medicaid Services monitor and evaluate Medicare Health Plans and rate the plans between 1 and 5 stars. The ratings are based on major categories that include:

- Preventive Care
- Chronic Care
- Prescription Drug Services
- Customer Service
- and Member Satisfaction

And they give you an easy, unbiased way to evaluate the quality of different plans. Kaiser Permanente consistently receives high star quality ratings which makes sense because our physicians, nurses, and staff are dedicated to giving you excellent care and a great experience.

To check out Kaiser Permanente Medicare Star ratings ² in your region, go to kp.org/medicarestars. When you choose a highly rated Medicare health plan, you can be confident you're getting a high level of quality and service.

Want a great plan? Look to the stars.
