

Kaiser Permanente Colorado's Pharmacy video

Your life is full, very full. The last thing you need is one more thing on your to-do list. Unless of course, that thing is to relax and put your feet up. Ah, that's more like it. At Kaiser Permanente, we want managing your medications to be as easy as pie. And why not? Life should be this sweet. To help you get the prescriptions you need, Kaiser Permanente offers flexible pharmacy options, so it doesn't have to feel like a chore. You decide what works best for you and your day.

Did you know many Kaiser Permanente medical offices have pharmacies on-site? It's right here. I can finish my appointment, grab my prescription, and still get a workout in before dinner. When getting to the pharmacy is not so convenient, I use the app or go online and have it delivered to my door. Or, even easier, I can set it and forget it, with auto refill. Kaiser Permanente understands what it takes to get it all done.

At home, or on the go, refilling prescriptions is just one of the ways that the Kaiser Permanente app delivers ease and convenience. With a few clicks, you can order your refill, and schedule it for pickup at a Kaiser Permanente medical office pharmacy, or use auto refill for automatic delivery by mail. You can also order online at kp.org/refill, or call your Kaiser Permanente pharmacy of choice and speak with a pharmacist. If you're refilling a maintenance medication, one taken regularly for an ongoing condition, be sure to get it through a Kaiser Permanente pharmacy. Affiliated retail pharmacies that are in-plan offer additional convenience. Visit an affiliated pharmacy for first-time prescriptions or refills on non-maintenance medications. To find the most conveniently located pharmacy, visit kp.org/locations. When you choose to order a prescription by mail, it ships at no cost to you. Need it urgently? For a flat-rate fee, some medications are eligible for next day delivery, or even same day delivery within 15 miles of a participating pharmacy. We believe that getting your healthcare needs met should be easy, maybe even fun. For all the ways your life is uniquely yours, Kaiser Permanente is proud to offer flexible pharmacy solutions that fit into your daily life. Kaiser Permanente. For all that is you.
