

## Transcript of Video: Vision Benefits

Did you know you may have access to Vision Benefits that can support you and your family?

Most eye exams and other preventive services are covered, sometimes at no cost, depending on your health plan. In some regions or plans, a copay or coinsurance may apply.

If your plan includes additional Vision Benefits, you may also get an allowance to help pay for glasses or contact lenses.

Regular vision care can help protect your health and make it easier to manage ongoing or unexpected concerns.

Take advantage of all the coverage offered to you and your family. (Product offerings may vary by region. Some vision benefits are included in base medical plans for some regions.)

Contact your HR team today to get started.
