

Dr. Kimberly Petrick

Hi, I'm Dr. Kimberly Petrick, a doctor practicing family medicine at Kaiser Permanente. I wanted to let you know that Medicare enrollment is available when you turn 65. It's important to know what that means for you. There's a lot to learn and we are here to help. The great thing is that you can stay with the care team that you know and trust. Our plans include hospital care, medical services, and prescription drug coverage. I chose to become a family medicine physician so that I could take care of the whole person and their whole family. As a primary care provider, I have the distinct honor of being included in my patient's day-to-day health, wellbeing, and standing by their side, no matter the stage or phase of life they are in.

Healthcare can sometimes seem daunting. And I pride myself in being my patient's advocate and partner in improving their best health outcomes. So it's important to be informed about your Medicare options. Take some time to learn and prepare for enrollment when you turn 65. And remember, we are always here to help you choose that Kaiser Permanente plan that is right for your needs and budget.
