

2020 California Exclusive Provider Organization (EPO) / Deductible EPO (DEPO) Commercial (Self-Funded Plans) Formulary

(List of Covered Drugs)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER WHEN YOU PARTICIPATE IN A KAISER PERMANENTE EXCLUSIVE PROVIDER ORGANIZATION (EPO) OR DEDUCTIBLE EPO (DEPO) SELF-FUNDED PLAN.

This prescription drug formulary was updated on 10/02/2019 and is effective as of January 1, 2020. This formulary document is subject to change and may vary depending on your health plan. It does not provide information regarding specific coverage, including specific exclusions, copays, or coinsurances. That information can be found by referring to your *Summary Plan Description* or other Plan documents. For more recent information about which drug formulary applies to your plan, visit kp.org/formulary or for questions about your prescription benefits contact the Customer Service number on your ID card.

What is the Kaiser Permanente California EPO/DEPO Commercial Self-Funded Formulary?

The California EPO/DEPO Commercial Self-Funded Formulary is a list of covered drugs chosen by a group of Kaiser Permanente doctors and pharmacists known as the Pharmacy and Therapeutics Committee. The Committee meets regularly to evaluate and select drugs that are safe and effective for our members. This Formulary meets the requirements outlined under state law, regulations, and guidance for commercial plans.

What drugs are covered?

The Kaiser Permanente formulary includes medically necessary brand, generic, and specialty drugs listed on the California Commercial Formulary, providing the prescription is filled at a Kaiser Permanente, or an affiliated pharmacy, and other plan rules are followed.

If you are prescribed a drug on the California Commercial Formulary, that drug will be provided under the terms of your drug benefit.

Getting an exception to the formulary

Drugs not listed on the formulary are called non-formulary drugs. When a Kaiser Permanente doctor determines that a non-formulary drug is medically appropriate and necessary, that drug will be provided under the terms of your prescription drug benefits. If your prescription benefits are not through Kaiser Permanente, you will be charged the full retail price for the drug.

You may consult with your doctor if an exception to the formulary is needed. You and your doctor are best able to determine your medication needs.

If you wish to have a non-formulary drug that your doctor determines not to be medically necessary, you may file an appeal with Customer Service.

Are there any restrictions on the drugs covered on the Formulary?

Some covered drugs may have additional requirements or limits on coverage, such as Quantity Limits. For certain drugs, Kaiser Permanente may limit the amount of the drug dispensed to a certain days' supply. For example, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed.

What is a brand-name drug?

Brand-name drugs are usually manufactured and sold by the drug company that originally researched and developed the drug. When the patent on a brand-name drug expires, other drug companies may manufacture and sell an FDA-approved generic version of the drug with the same active ingredient(s) at lower prices.

What is a generic drug?

A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

What is a specialty drug?

Specialty drugs are very high-cost drugs approved by the FDA that are on our formulary used to treat complex chronic conditions such as rheumatoid arthritis, multiple sclerosis, or cancer.

What drugs are eligible to be mailed from the mail order pharmacy?

Most drugs can be mailed from our mail order pharmacy. Some drugs (for example, drugs that are extremely high cost or require special handling) may not be eligible for mailing. Drugs cannot be mailed outside the United States.

You can order refills through our mail-order service online at kp.org/refill or by phone or mobile app. There is no extra charge for mail order. The appropriate cost share (according to your prescription drug benefit) will apply.

Your prescription drug benefit may have a lower cost share if you use the mail order pharmacy.

Please refer to your *Summary Plan Description* or other *Plan documents* for complete details of your prescription drug benefit.

Kaiser Permanente California Commercial Formulary

Kaiser Permanente may add or remove drugs from the California Commercial Formulary during the year. These changes to the Formulary are based on new information or new drugs that become available.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical condition

The formulary begins on page 5. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Drugs". If you know what your drug is used for, look for the category name in the list that begins on page 5. Then look under the category name for your drug.

Alphabetical listing

If you are not sure what category to look under, you should look for your drug in the index that begins on page 25. The index provides an alphabetical list of all the drugs included in this document. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g. ALBENZA) and generic drugs are listed in lower-case italics (e.g. *amoxicillin*).

All dosage **forms** and **strengths** for a particular drug listed **may not be on the Formulary**. Some drugs have multiple dosage forms. In such cases, some dosages may be on the Formulary and others not. **Note:** Some of these drugs may be available only in a clinic setting and your applicable cost share may apply.

The second column, "Drug Tier," will indicate what tier number the drug is in. Drugs on the California EPO/DEPO Commercial Self-Funded Formulary are categorized:

Tier 1 – Preferred Generics

Tier 2 – Preferred Brands

Tier 3 – Non-Preferred (Generics and Brands)

Tier 4 – Specialty

Note: Your plan may not include benefits for each tier designated. Also, some drugs are required to be provided at no cost to members. Refer to your *Summary Plan Description* or other *Plan documents* for information on specific drug coverage for your plan.

The third column of the chart will indicate any requirements or limits for that drug:

QL = Quantity Limits -For certain drugs, we may limit the amount of drug that you can receive. Additionally, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed.

LD = Limited-distribution drugs can only be obtained at certain specialty pharmacies. To locate a specialty pharmacy, contact Customer Service.

Please refer to your electronic member guidebook at **kp.org/eguidebook** for a listing of KP pharmacies available to you or contact Customer Service.
