

2020 California Medi-Cal Managed Care Formulary

(List of Covered Drugs)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER WHEN YOU PARTICIPATE IN A MEDI-CAL MANAGED CARE PLAN OFFERED BY KAISER PERMANENTE.

This prescription drug formulary was updated on 05/27/2020 and is effective as of May 27, 2020. This formulary document is subject to change and may vary depending on your health plan. For more recent information or questions about which drug formulary applies to your plan, visit kp.org/formulary or call our Member Service Contact Center 24 hours a day, seven days a week (closed holidays). 1-800-464-4000 English (and over 150 languages), 1-800-788-0616 Spanish, 1-800-757-7585 Chinese dialects and 711 TTY for the deaf or hard of hearing.

What is the Kaiser Permanente California Medi-Cal Managed Care Formulary?

The California Medi-Cal Managed Care Formulary is a list of covered drugs chosen by a group of Kaiser Permanente doctors and pharmacists known as the Pharmacy and Therapeutics Committee. The Committee meets regularly to evaluate and select drugs that are safe and effective for our members. This Formulary meets the requirements outlined under state law, regulations, and guidance for Medi-Cal Managed Care plans.

What drugs are covered?

Kaiser Permanente covers brand, generic and specialty drugs listed on the California Medi-Cal Managed Care Formulary as long as the drug is medically necessary, the prescription is filled at a Kaiser Permanente, or an affiliated pharmacy, and other coverage rules are followed.

If you are prescribed a drug on the California Medi-Cal Managed Care Formulary, that drug will be covered under the terms of your drug benefit.

Getting an exception to the formulary

Drugs not listed on the formulary are called non-formulary drugs. When a Kaiser Permanente doctor determines that a non-formulary drug is medically appropriate and necessary, that drug will be covered under the terms of your benefits (if you have a prescription drug benefit). If you do not have coverage for a certain type of prescription drug (for example, sexual dysfunction and infertility), you will be charged the full retail price for the drug.

You may consult with your doctor if an exception to the formulary is needed. You and your doctor are best able to determine your medication needs.

You may also contact Member Services, 24 hours a day, 7 days a week. If you wish to have a non-formulary drug that your doctor determines not to be medically necessary, you may file a grievance with Member Services.

Are there any restrictions on the drugs covered on the Formulary?

Some covered drugs may have additional requirements or limits on coverage, such as Quantity Limits. For certain drugs, Kaiser Permanente may limit the amount of the drug dispensed to a certain days' supply. Additionally, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed.

What is a brand-name drug?

Brand-name drugs are usually manufactured and sold by the drug company that originally researched and developed the drug. When the patent on a brand-name drug expires, other drug companies may manufacture and sell an FDA-approved generic version of the drug with the same active ingredient(s) at lower prices.

What is a generic drug?

A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

What is a specialty drug?

Specialty drugs are very high-cost drugs approved by the FDA that are on our formulary used to treat complex chronic conditions such as rheumatoid arthritis, multiple sclerosis, or cancer.

What drugs are eligible to be mailed from the mail order pharmacy?

Most drugs can be mailed from our mail order pharmacy. Some drugs (for example, drugs that are extremely high cost or require special handling) may not be eligible for mailing. Drugs cannot be mailed outside the United States.

You can order refills through our mail-order service online at kp.org/refill or by phone or mobile app. There is no extra charge for mail order. The appropriate cost share (according to your prescription drug benefit) will apply.

Please refer to your *Evidence of Coverage* for complete details of your prescription drug benefit.

Kaiser Permanente California Medi-Cal Managed Care Formulary

Kaiser Permanente may add or remove drugs from the California Medi-Cal Managed Care Formulary during the year. These changes to the Formulary are based on new information

or new drugs that become available.

Specific medications used for the treatment of substance use disorders, HIV, blood factors, and anti-psychotics are “carved out” of the Kaiser formulary and must be billed to the State Medi-Cal system as fee-for-service.

Intravenous solutions: Parenteral nutrition solutions (TPN), separately administered intravenous lipids and other unlisted intravenous solutions are restricted to dispensing up to a 10 day supply following inpatient discharge from an acute care hospital.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical condition

The formulary begins on page 4. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Drugs”. If you know what your drug is used for, look for the category name in the list that begins on page 4. Then look under the category name for your drug.

Alphabetical listing

If you are not sure what category to look under, you should look for your drug in the index that begins on page 91. The index provides an alphabetical list of all the drugs included in this document. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g. ALBENZA) and generic drugs are listed in lower-case italics (e.g. *amoxicillin*)

All dosage **forms** and **strengths** for a particular drug listed **may not be on the Formulary**. Some drugs have multiple dosage forms. In such cases, some dosages may be on the Formulary and others not. **Note:** Some of these drugs may be available only in a clinic setting.

The second column, “Drug Tier,” will indicate what tier number the drug is in. Drugs on the California Medi-Cal Managed Care Formulary are all categorized as Tier 1.

The third column of the chart will indicate any requirements or limits for that drug:

QL = Quantity Limits -For certain drugs, we may limit the amount of drug that you can receive. Additionally, when there is a national shortage of a drug, we may limit the quantity of the drug dispensed.

LD = Limited-distribution drugs can only be obtained at certain specialty pharmacies. To locate a specialty pharmacy, refer to your electronic member guidebook at **kp.org/eguidebook** (under the facility directory) or contact Member Services.

OTC = Over-the-Counter

Please refer to your electronic member guidebook at **kp.org/eguidebook** for a complete listing of network pharmacies available to you or contact Member Services.
