

- Like all of us, you are hearing news about COVID-19 and might be thinking that, since you're pregnant, maybe you should be tested for the virus.
- If you have symptoms of COVID-19 including fever, cough, and shortness of breath and are pregnant or have been pregnant in the last two weeks, then you should be tested.
- Call the number on your membership card to get more information about how you can get an appointment for testing. It is important to call first if you have symptoms or believe you have been exposed to COVID-19. This is essential to keep you and others safe.
- You can find more information on [kp.org](https://www.kp.org) and [cdc.gov](https://www.cdc.gov).
