Kaiser Permanente
Transition Policy

You may be able to get a temporary supply

Under certain circumstances, we can offer a temporary supply of a drug to you when your drug is not on our Drug List or when it is restricted in some way. Doing this gives you time to talk with your provider about the change in coverage and figure out what to do.

To be eligible for a temporary supply, you must meet the two requirements below:

1. **The change to your drug coverage must be one of the following types of changes:**
   - The drug you have been taking is no longer on our plan's Drug List.
   - Or the drug you have been taking is now restricted in some way

2. You must be in one of the situations described below:
   - For those members who are new or who were in our plan last year: We will cover a temporary supply of your drug during the first 90 days of your membership in our plan if you are new and during the first 90 days of the calendar year if you were in our plan last year. This temporary supply will be for a maximum of a 30-day supply. If your prescription is written for fewer days, we will allow multiple fills to provide up to a maximum of a 30-day supply of medication. The prescription must be filled at a network pharmacy. (Please note that the long-term care pharmacy may provide the drug in smaller amounts at a time to prevent waste.)
   - For those members who have been in our plan for more than 90 days and reside in a long-term care (LTC) facility and need a supply right away: We will cover one 31-day supply of a particular drug, or less if your prescription is written for fewer days. This is in addition to the above temporary supply situation.

After you fill your temporary supply of your drug we will send you a letter that reminds you that it is only a temporary supply and that

you should talk with your provider to decide what to do when your temporary supply runs out. You can either switch to a different drug covered by our plan or ask us to make an exception for you and cover your current drug.

Refer to the coverage determinations, appeals and exceptions on how to do this.
